The Global Startup Ecosystem Report 2023 is Set to Launch at The Next Web Conference in June

SAN FRANCISCO, Calif. — November 2, 2022 — [The Global Startup Ecosystem Report \(GSER\) 2023](#) from Startup Genome and the Global Entrepreneurship Network is in production to launch at The Next Web Conference (TNW Conference) in June 2023. The report, driven by a consortium of representatives from 40+ countries, looks at the current state of startup activity and related investment. It features rankings that indicate which global ecosystems are currently driving innovation. JF Gauthier, Founder and CEO of Startup Genome, will introduce the report on the conference mainstage, sharing insights into the state of the global startup ecosystem.

The GSER is the world's most comprehensive research on startups, with data from over three million companies across 280+ entrepreneurial innovation ecosystems. The 2023 edition ranks the top 30 and 10 runner-up global ecosystems and includes a top 100 ranking of emerging ecosystems. It also takes a look at startup communities from a regional perspective, separately ranking ecosystems in Asia, Europe, Latin America, MENA, North America, Oceania, and the Rest of Africa.

“We are thrilled to be launching the GSER with TNW this year. Our comprehensive data-driven research coupled with the global community building of TNW Conference is the perfect storm for startups and startup ecosystem builders to connect towards increased success,” shares JF Gauthier, Founder and CEO of Startup Genome.

The report will launch at Europe's leading tech festival, TNW Conference, which takes place on June 15 and 16, 2023 in Amsterdam. TNW Conference is where industry leaders and tech enthusiasts alike come together to explore how tech will shape the world of tomorrow. Attendees gain insights from industry pioneers and seasoned leaders. They have the opportunity to connect with international tech executives, policymakers, and representatives from a wide range of startups and scale-ups. This flagship tech offers all the benefits of a conference with the energy of a festival – do business, get inspired, meet industry peers, and enjoy every minute of it.

“We are excited to once again provide the global platform for the launch of the annual GSER. Amsterdam, our home city, has risen the GSER ranks in recent years, thanks to many innovative programs across government and industry, and TNW is proud to have played a part in the development of its prospectus startup ecosystem.” shares Zach Butler, Events Director at TNW, a Financial Times company]
