about transferring files, so being able to premiere The Ting Tings' new video for 'Do It Again' globally is absolutely thrilling. The creative content on WeTransfer defines the look and feel of our service, so we always want to make sure we have exciting, fresh and different content for our users.... 'Do It Again' does just that. It's a perfect fit for us and we're delighted to be involved.

About WeTransfer

WeTransfer is a leading file sharing service based out of Amsterdam, providing a uniquely creative space for people to share files. Launched in 2009 by Bas Beerens and Nalden, WeTransfer was borne out of a simple need to provide a solution for people to send large files easily. The service now has 60 million monthly users and prides itself on its simplicity. The founders' desire of producing "something their parents could use" has led the WeTransfer team to a service without the complications of logins, signup forms, data capture and banner advertising.

WeTransfer is completely free when sending files of up to 2GB in size, or users can sign up to WeTransfer Plus for €10 a month to make 10GB transfers to multiple recipients alongside receiving 50GB of storage space and the ability to personalize and secure a channel.

Instead of plastering the site with intrusive banner ads, the team has created a backdrop of curated wallpapers provided by a wide community of artists, illustrators, filmmakers, photographers and brands. The result is an enriched user experience to a backdrop of beautiful images. WeTransfer puts the love back into advertising.
