

AcceptEmail at Utility Payment Conference in Spokane, Washington, September 12-15

Faster payments from happier customers, dramatic reductions in operating costs, instant two-way confirmations of payments received, no more cumbersome registrations or log-ins... these are just a few of the advantages that AcceptEmail will be showing at the [Utility Payment Conference](#) in Spokane, Washington, September 12-15.

AcceptEmail has a 95% market share of the utilities, telecommunications, insurance, and consumer finance industries in the Netherlands. The attendees of the UPC will hear how AcceptEmail's consumer-centric way of digital bill payment also makes life easier for credit professionals and budget-conscious executives. Customers pay their outstanding balances 50% faster, while billing and reminder costs drop by up to 70%.

The company's [email-based Software-as-a-Service \(SAAS\)](#) requires no registration, no log-in and no download of apps. End-users can pay an AcceptEmail bill in under 30 seconds, straight from the inbox on any device. An AcceptEmail never contains confidential information. After payment, its status banner changes from blue to green in real-time, so both sender and recipient know that payment was made.

Company

Two of their senior executives will be demonstrating the convenient, secure, pay-from-the-inbox service at the AcceptEmail Expo Booth 410. Melanie Barteaux explains "Our service is great for both recipients and billers. We reduce overhead and accelerate cash flow for businesses. And we make paying bills a convenient, secure, fast and satisfying experience for their customers. 'As easy as email' is our motto. We're looking forward to meeting like-minded billers and partners in Spokane."

ABOUT ACCEPTEMAIL

[AcceptEmail](#) is the easiest way to receive and pay bills and reminders for consumers and SMEs. Rather than a notification to log in to a biller portal, customers receive real-time payment requests via various messaging solutions: email, mobile, QR or social media. In a few clicks, bills can be paid directly from the inbox, using online or

mobile payment methods. No manual data (re)entry is involved, and the customer does not need to register or log-in. Customers experience more convenience, with fewer steps to take and with real-time updates that show the current status of the bill in the message itself.

AcceptEmail is the market leader for consumer remittances in Western Europe, serving approximately 600 clients. IntelligentHQ.com named the company one of [Europe's 50 Hottest FinTech Companies](#) in 2014. Headquartered in Amsterdam, AcceptEmail has offices in Belgium, Germany, the UK, and New York.
