UIB joins Intel® IoT Solutions Alliance

Intel® IoT Solutions Alliance Recognizes UIB's intelligent IoT messaging platform

Singapore (March 20, 2019) — Singapore-based market leader for intelligent IoT messaging, UIB has joined the Intel IoT Solutions Alliance, a global alliance for IoT systems developers and one of the world's most recognized and trusted technology ecosystems.

UIB CEO Toby Ruckert said, "This opens up new opportunities for UIB to use new technologies and innovative solutions from Intel and other participants of the alliance. Being recognized by the Intel IoT Solutions Alliance validates UIB's cloud-based, intelligent IoT messaging platform, which allows users talk to any connected 'thing' or service on over 30 of the world's most popular communications platforms, including WhatsApp (UIB is an official WhatsApp Business solution provider), Facebook Messenger, WeChat, and many more."

UIB actively participates in IoT development and IoT solutions. It is a member of The Things Network and the IoT Council.

Intel IoT Solutions Alliance's 500+ global member companies provide a wide range of scalable, interoperable solutions that accelerate deployment of intelligent devices and end-to-end analytics – including everything from modular components to market-ready systems. Members of the Intel IoT Alliance are known for creating leading-edge IoT solutions, and helping organizations bring products to market faster.

###

About Intel IoT Solutions Alliance

The Intel Internet of Things Solutions Alliance is a global organization comprised of over 500 technology companies. The main goal of the alliance is the joint development of scalable and compatible IoT and machine internet solutions. Close cooperation with Intel and other members allows companies in the Alliance to apply the latest technologies to their development and allows developers to deliver innovative solutions to the market.

About UIB

We make human to machine communications simple.

Named a Gartner "Cool Vendor" in Unified Communications and Collaboration Technologies, UIB is a global cloud computing company. The creators of conversational IoT, we solved the problem of how to talk to cloud-connected software, services, chatbots, and devices. UIB provides its customers, partners, and developers with omnichannel messaging solutions using its patented UnificationEngine®, Unified AI®, and SmartContact® technologies.

Adding our UnificationEngine-powered SmartContact to your smartphone's address book allows you to talk to any connected "thing" or service on over 30 of the world's most popular communications platforms, including email, SMS, smart speakers, social media messaging and chat apps — such as WhatsApp (UIB is an official WhatsApp Business solution provider), Facebook Messenger, WeChat, and many more.

Our award-winning technologies help smart home and connected appliance manufacturers, real estate and PropTech companies, hospitality companies, telecommunications providers, museums, airlines, enterprise software companies, government authorities, and others to increase their revenues, decrease their costs, and delight their users. With a SmartContact in your smartphone's address book, you can talk via natural language voice and instant messaging to any device on any channel in any language with or without the device's native mobile app or a virtual assistant.
