Researchers and startups speed date with potential co-founders

UtrechtInc and **Climate-KIC** select innovations with market potential. These could be startups and projects from pioneers, researchers or major research institutes and universities. They are all still missing (co-)entrepreneurs! With this event we bring both parties together to get acquainted and potentially form a team. Our shared objective is to transform prototypes, publications or scientific research into market ready business concepts.

Research, innovative projects and startups

If you're a scientist, you publish your research. Do you want to make a positive impact on society with an application of this research? Maybe you'd like to be an entrepreneur yourself, or you're looking for an initiator to bring your product to the market? At our MYC-event you can informally **meet with people** that (with you) want to create successful companies. **UtrechtInc** is the startup incubator for **Utrecht University** and **UMC Utrecht** and is organizing this event for these knowledge institutions, but also for propositions from **RIVM** and **TNO**. IT startups in Health, Education and Climate can also **register** to speed date with talent they're still missing in their teams.

Entrepreneurs/co-founders

Do you have a background in Business Development, Sales, Finance, Operations, IT or Marketing? Are you looking for innovative concepts or promising (future) startups? Want to contribute your knowledge, network or skills, for example as a CFO or CTO? Join us on April 11, meet some ingenious propositions and maybe you'll find a match as a complementary team member!

Matchmaking

Prior to April 11, we'll inform you about the registrations via our newsletter and UtrechtInc's Netwerkapp. During the event the startups and researchers present their propositions with their own stand in an informal market. Prospective co-founders walk around to scout for interesting projects. In short sessions they will discover whether there is a match as a complementary team member.

Additionally the event has individual matchmakers, speed dates and plenary pitches to help both parties to get acquainted.

Startup team

After April 11 you'll meet with your match to set up a cooperation agreement.

UtrechtInc and **Climate-KIC** can support you in doing that. We offer support for startups with proven acceleration programs, funding, office facilities and a large network of mentors, peers and talent. In the startup programs teams focus on quickly developing a scalable business model, paying customers and a working product.

Registration

You can register for MYC via this [link](#).

Location

UtrechtInc & Climate-KIC

HR. Kruytgebouw | Padualaan 8 | 3584 CH Utrecht | first floor
