

3D Hubs Founders in New York City

3D Hubs, the world's largest network of 3D printers, will be in New York City this month for the 3D Printshow!

Info New York, New York | Published on: February 11, 2014

Summary **3D Hubs, a collaborative platform that connects people that want to print in 3D with over 3,000 printer owners worldwide, will be in New York City February 12th through the 15th to exhibit at the 3D Printshow! The 3D Printshow is the world's hottest 3D printing event, featuring some of the sharpest minds in future-tech, and 3D Hubs founders Bram de Zwart and Brian Garret are featured guest speakers. 3D Hubs will also be hosting a post-3D Printshow event for the local 3D printing community with Alpha One Labs.**

Details 3D Hubs, the world's largest network of 3D printers, will be in New York City February 12th through the 15th to exhibit at the 3D Printshow and speak on the future of local manufacturing.

At 3D Hubs, we believe everyone should have easy access to 3D printing, and we provide this by connecting people who want to print in 3D with over 3,000 3D printer owners worldwide. We have already launched our service in many major cities across the world, and have already had significant successes in London, Amsterdam, Berlin, Paris, and Sao Paulo, in addition to New York City. With our platform anybody in these cities can now bring customized, locally produced goods to those around them. We are building local manufacturing communities worldwide, and sparking an industrial revolution in the process.

The 3D Printshow is the world's hottest 3D printing event, featuring some of the sharpest minds in future-tech, and 3D Hubs founders Bram de Zwart and Brian Garret are featured guest speakers. Don't miss their talk on the future of local manufacturing in the Congress Hall of the Metropolitan Pavilion (show venue) on Friday, February 14th at 6:00 pm, and stop by stand number A03 at the show to meet them in person.

Following the show, 3D Hubs will also be hosting an event for the local 3D printing community on Sunday, February 16th at 5:00 pm at Alpha One Labs in Greenpoint, Brooklyn. Please join us then for live 3D printing, Brooklyn Brewery beers, and meet others in your local New York City 3D printing community!

New York is a very important community for the 3D Hubs team, and we look forward to meeting you at the 3D Printshow and our post-show event.

Please visit the 3D Hubs website for more information on our platform (<http://www.3dhubs.com/>), as well as on Vimeo (<http://vimeo.com/72721069>).

About: 3D Hubs is an Amsterdam-based startup founded less than a year ago, but already featured on most major blogs and media such as Fast Company, Wired, Gizmodo, Forbes, The Next Web, and more.

About 3D Hubs

3D Hubs is a collaborative production platform for 3D printer owners and 3D makers. We are on a mission to make 3D printing accessible to everyone by unlocking the world's idle 3D printers, facilitating transactions between 3D printer owners (Hubs) and people that want to make 3D prints (makers). 3D Hubs is the world's largest network of 3D printers with over 3,200 printing locations across 80 countries (and counting), helping people print 3D customized products locally every day. Founded in April 2013 by two former 3D Systems employees, 3D Hubs is based in Amsterdam and is a privately held company backed by Balderton Capital and Rockstart Accelerator. Read our blog, follow us on Twitter, or learn more at <http://www.3dhubs.com>.
