

70-331

Microsoft

Core Solutions of Microsoft SharePoint Server 2013

The 70-331 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 70-331 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 70-331 exam is very challenging, but with our 70-331 questions and answers practice exam, you can feel confident in obtaining your success on the 70-331 exam on your FIRST TRY!

Microsoft 70-331 Exam Features

- Detailed questions and answers for 70-331 exam
- Try a demo before buying any Microsoft exam
- 70-331 questions and answers, updated regularly
- Verified 70-331 answers by Experts and bear almost 100% accuracy
- 70-331 tested and verified before publishing
- 70-331 exam questions with exhibits
- 70-331 same questions as real exam with multiple choice options

Acquiring Microsoft certifications are becoming a huge task in the field of I.T. More over these exams like 70-331 exam are now continuously updating and accepting this challenge is itself a task. This 70-331 test is an important part of Microsoft certifications. We have the resources to prepare you for this. The 70-331 exam is essential and core part of Microsoft certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 70-331 Test and save time and money while developing your skills to pass your Microsoft 70-331 Exam? Let us help you climb that ladder of success and pass your 70-331 now!

Core Solutions of Microsoft SharePoint Server 2013

Exam Questions & Answers

Section 1: Sec One (1 to 10)
Details: Topic 1, Large Company

Section 2: Sec Two (11 to 24)
Details: Topic 2, Photo Processing

Section 3: Sec Three (25 to 34)
Details: Topic 3, Blue Yonder Airlines

Section 4: Sec Four (35 to 44)
Details: Topic 4, A.Datum

Section 5: Sec Five (45 to 54)
Details: Topic 5, Contoso Ltd

Section 6: Sec Six (55 to 123)
Details: Topic 6, Mix Questions

Section 1: Sec One (1 to 10)**Details:** Topic 1, Large Company**Background**

You are the SharePoint administrator for a large company. You are responsible for installing and configuring a multi-server SharePoint environment that will be used for information management and collaboration.

The company has an Active Directory Domain Services (AD DS) domain. User-specific contact information, including employee photos, is stored and managed in Active Directory. All employees are located in the ActiveUsers organizational unit (OU).

The User Profile Synchronization service runs on a server named SERVER1.

Business Requirements

The SharePoint environment must meet the following business requirements:

- Ensure that users can connect to the portal by using the same URL from any location.
- Ensure that users can access corporate information from outside the network without using a VPN connection.
- Allow users to configure notifications for content changes.
- Allow users to follow content creators.
- Limit the number of sites and people each user can follow to 100.
- Allow content authors to upload documents, large image files, and large video files for consumption by internal and external users.
- Allow administrators to promote search query results across the entire company.
- Utilize My Sites to share content.
- Provide opportunities for social interaction.

Technical Requirements

You must meet the following technical requirements for the SharePoint environment:

- Do not exceed the minimum hardware specifications.
- Install the minimum supported versions of all software on the servers.
- Control the growth of storage utilization.
- Maximize existing content database usage before creating new content databases.
- Store large files on network attached storage (NAS).
- Ensure that all web applications, site collections, files, databases, and components stay within the supported limits.
- Configure the User Profile Synchronization service to import user profile data from Active Directory.
- Grant the User Profile service account the least permissions necessary to read data.
- Ensure that current and future SharePoint environments include the most recent software updates.
- Use predefined database naming conventions.
- Create individual user sites by using the <https://contoso.com/personal/path>.

QUESTION: 1

You create a User Profile Synchronization connection.

You need to grant the necessary permissions to the synchronization account.

What should you do?

- A. Grant the account Full Control on the ActiveUsers OU.
- B. Grant the account Full Control on the AuthenticatedUsers AD security group.
- C. Grant the account Read permission on the domain.
- D. Grant the account the Replicate Directory Changes permission on the domain.

Answer: D

QUESTION: 2

HOTSPOT

You need to ensure that user-selected subscription content automatically appear on users' My Sites.

Which configuration option should you choose? (To answer, select the appropriate option in the answer area.)

The screenshot shows the Office 365 Admin Center navigation pane with the following sections and options:

- People**
 - Manage User Properties | Manage User Profiles
 - Manage User Sub-types | Manage Audiences
 - Schedule Audience Compilation | Compile Audiences
 - Manage User Permissions | Manage Policies
- Synchronization**
 - Configure Synchronization Connections |
 - Configure Synchronization Timer Job |
 - Configure Synchronization Settings | Start Profile Synchronization
- Organizations**
 - Manage Organization Properties | Manage Organization Profiles |
 - Manage Organization Sub-types
- My Site Settings**
 - Setup My Sites | Configure Trusted Host Locations |
 - Manage Promoted Sites | Publish Links to Office Client Applications
 - Manage Social Tags and Notes | Manage Following

Answer:

People

[Manage User Properties](#) | [Manage User Profiles](#)

[Manage User Sub-types](#) | [Manage Audiences](#)

[Schedule Audience Compilation](#) | [Compile Audiences](#)

[Manage User Permissions](#) | [Manage Policies](#)

Synchronization

[Configure Synchronization Connections](#) |

[Configure Synchronization Timer Job](#) |

[Configure Synchronization Settings](#) | [Start Profile Synchronization](#)

Organizations

[Manage Organization Properties](#) | [Manage Organization Profiles](#)

[Manage Organization Sub-types](#)

My Site Settings

[Setup My Sites](#) | [Configure Trusted Host Locations](#)

[Manage Promoted Sites](#) | [Publish Links to Office Client Applications](#)

[Manage Social Tags and Notes](#) | [Manage Following](#)

Explanation:

Note:

* A user's individual site collection hosts the document library of the user's individual My Site. An individual site collection is created the first time that a user accesses the My Site.

QUESTION: 3

You need to ensure that content authors can publish the specified files.
What should you do?

- A. Create multiple authoring site collections. Create a site that contains lists, document libraries, and a Pages library. Create an asset library in a new site collection, and enable anonymous access to the library on the publishing web application.
- B. Create multiple authoring site collections. Create a site that contains lists, document libraries, and a Pages library. Create an asset library in the authoring site collection, and enable anonymous access to the library on the authoring web application.
- C. Create one authoring site collection. Create a site that contains multiple lists, document libraries, and Pages libraries. Create an asset library in a new site collection, and enable anonymous access to the library on the publishing web application.

D. Create multiple authoring site collections. Create a site that contains multiple lists, document libraries, and Pages libraries. Create an asset library in a new site collection, and enable anonymous access to the library on the publishing web application.

Answer: B

QUESTION: 4

You need to import employee photos into SharePoint user profiles by using the least amount of administrative effort. Which three actions should you perform? (Each correct answer presents part of the solution. Choose three.)

- A. Define a mapping for the thumbnailPhoto attribute of the Picture user profile property.
- B. Run the Update-SPUserSolution Windows PowerShell cmdlet.
- C. Run an incremental synchronization of the User Profile Synchronization service.
- D. Run a full synchronization of the User Profile Synchronization service.
- E. Run the Update-SPProfilePhotoStore Windows PowerShell cmdlet.
- F. Define a mapping for the photo attribute of the Picture user profile property.

Answer: A, D, E

Explanation:

A: Step 3 below. D: Step 5 below. E: Step 6 below.

Note: Importing Images Into SharePoint User Profiles My Sites

To make the user images that we have uploaded into the thumbnail Photo attribute in Active Directory available in SharePoint we will first need to map it to the Picture property in the User Profile Service Application.

Firstly you will need to go into the User Profile Service Application.

1. Central Admin > Application Management > Service Applications > Manage Service

Applications > User Profile Service Application

2. Then you will need to go into the Manage User Properties section and edit the Picture property.

3. Next we will map the Active Directory property thumbnail Photo to the Picture property in SharePoint

4. Once the mapping has been applied the Manage User Properties page will look like this.

5. Now we will need to run a Full User Profile Synchronization job so that SharePoint can import the user images from Active Directory

Synchronization > Start Profile Synchronization > Start Full Synchronization

6. Lastly we will need to force SharePoint to update the User Profile Database – This will create the thumbnails that are used in My Sites and the User Profile Service.

This will need to be run in the SharePoint PowerShell Console with the appropriate My Site permissions.

```

1 # This will create thumbnails from the user profile images saved in the My Sites User
  Profile pictures library
2 Update-SPProfilePhotoStore -MysiteHostLocation http://mysites -
  CreateThumbnailsForImportedPhotos 1

```

QUESTION: 5

DRAG DROP

You need to install the appropriate versions of Windows Server, Microsoft SQL Server, and Microsoft .NET Framework in the server environment.

Which operating system and applications should you install? (To answer, drag the appropriate operating systems and applications to the correct server layers in the answer area. Each operating system or application may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Answer Area		
Server layer	Operating system	Application
Web		
Application		
Database		

.NET Framework 4.0
.NET Framework 4.5
SQL Server 2008 SP2
SQL Server 2008 R2 SP1
SQL Server 2012
Operating system
Windows Server 2008 SP2
Windows Server 2008 R2 SP1

Answer:

Answer Area		
Server layer	Operating system	Application
Web	Windows Server 2008 R2 SP1	.NET Framework 4.5
Application	Windows Server 2008 R2 SP1	.NET Framework 4.5
Database	Windows Server 2008 R2 SP1	SQL Server 2008 R2 SP1

Explanation:

Server Layer, Web

Operation System: Windows Server 2008 R2 SP1

Application: .NET Framework 4.5

Server Layer, Application

Operation System: Windows Server 2008 R2 SP1

Application: .NET Framework 4.5

Server Layer, Database

Operation System: Windows Server 2008 R2 SP1

Application: SQL Server 2008 R2 SP1

Note:

* From scenario: Install the minimum supported versions of all software on the servers.

* Minimum requirements for a single server with built-in database: include:

The 64-bit edition of Windows Server 2008 R2 Service Pack 1 (SP1) Standard, Enterprise, or

Datacenter or the 64-bit edition of Windows Server 2012 Standard or Datacenter

Microsoft .NET Framework version 4.5

Microsoft SQL Server 2008 R2 SP1 -

QUESTION: 6

You copy the content of the SharePoint installation media and software updates to your hard drive. You need to meet the setup requirements for future SharePoint server installations. What should you do?

A. Extract the content of each file to the Updates folder by running the /extract:<path> command.

B. Upgrade the installation media by running the /lang:<lcid> command.

Pass4sure Certification Exam Features;

- Pass4sure offers over **4500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **150** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
