Dutch agency N=5 wins 'Independent Agency of the Year' at Eurobest

During the Eurobest 2020 awards, N=5 was named European "Independent Agency of the Year" and "National Agency of the Year - The Netherlands". The agency wins the Special Awards after receiving two Eurobest awards earlier this week for the project "[The Darkside of Money](#)" for ABN AMRO.

Bastiaan Weers (Head of strategy N=5): *"In an era in which major changes are taking place in all kinds of areas, independent thinking is more valuable than ever. Thanks to our independence, we can quickly respond to new developments and for example, invest in new ideas that we truly believe in."*

The prestigious Eurobest Awards crown the best advertising work of the past year. The prizes are awarded every December by a jury composed of renowned advertising agencies from all over Europe.

Thijs Bontje (Creative director N=5): *"We are extremely proud that, despite these challenging times, we as a relatively small and independent agency from The Netherlands continue to create meaningful work. Together with our clients, we are really excited that this is recognized and appreciated through whole Europe."*
