

Tina Win Releases “Chaos” as a New Chapter Takes Shape

Following “How To Be Cool,” Tina Win Returns With Her Most Fearless Release Yet

After the successful release of *"How To Be Cool"* in March, independent pop artist **Tina Win** is continuing a productive year with the release of her newest single, **"Chaos,"** available now on all major streaming platforms. The track serves as the first look at her upcoming project, paving the way for her next single, *"She Knows,"* arriving in mid-July.

The track marks another milestone in a year that has seen the Romanian born, New Jersey raised artist continue building her career on her own terms through *Tina Win Music LLC*, the company she founded to maintain complete ownership of her music and creative direction. *"How To Be Cool"* introduced listeners to a playful and confident side of her songwriting, and now, **"Chaos"** shifts into more introspective territory, focusing on resilience and the personal growth that can emerge during periods of change. This evolution will culminate around

September with the release of her much-anticipated "*She Knows*" EP, a body of work that will drop alongside another new single, "*Running in Place*."

Running two minutes and forty six seconds, "**Chaos**" wastes little time getting to its point. The song is built around tension, instability, and the strange sense of freedom that can emerge when expectations begin to fall away. A steady pulse drives the record forward, keeping the focus on the song's emotional core. The arrangement avoids unnecessary distractions, relying on restraint and control while allowing each section to build naturally toward its emotional peaks.

"'Chaos' was inspired by those moments in life when everything feels like it's happening at once. When your emotions, relationships, dreams, and fears are all colliding," says Tina Win. *"I wrote it from a place of recognizing that life isn't always neat or predictable, and sometimes the pressure to have everything figured out can be overwhelming."*

The track captures the tension between feeling overwhelmed and finding the strength to keep moving forward. Instead of resisting change, it looks at what can happen when people learn to adapt and trust themselves through difficult transitions.

For listeners who have followed her recent releases, the single offers a different perspective on themes that have appeared throughout her work. Since introducing herself through earliest material, she has steadily built a catalog focused on identity, resilience, and personal change. The flirtatious confidence of "*Try Anything*," the adolescent reflections of "*Wallflower*," the rebellious spirit of "*One Night Renegade*," and the sharp attitude of "*How To Be Cool*" all explored different sides of the artist. "**Chaos**" continues that evolution by turning inward, trading attitude and rebellion for reflection without losing the conviction that has defined her music from the beginning.

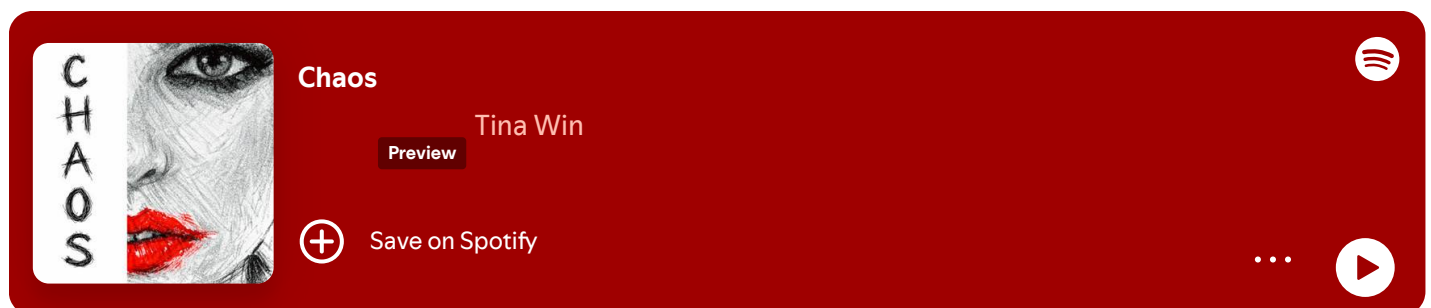

Adopted following the fall of communism, [Tina Win](#) has built her career on persistence and self belief. Long before releasing music professionally, she spent years studying classical singing and acting while developing the storytelling instincts that would later shape her songwriting. Her path also led through the worlds of fashion and editorial media, including

work with Allure and Cosmopolitan. Those experiences provided an education in image, language, and audience connection, lessons she now applies to every aspect of her music career.

Beyond its personal meaning, Tina hopes the track resonates with listeners. *"I hope listeners walk away feeling empowered by their own imperfections and uncertainties,"* she says. *"If someone hears the song and feels a little less alone in their struggles, or a little more confident in navigating their own chaos, then I've accomplished what I set out to do."*

With **"Chaos,"** she is not looking for permission, approval, or a place within somebody else's formula. The single stands as another defining entry in a catalog built independently and released on her own terms. She continues to follow her own instincts, documenting the messier parts of change and reinvention. **"Chaos"** embraces uncertainty, walks straight into it, and finds power there. For **Tina Win**, that has always been the point.
