ABOUT VIRICITI

ViriCiti, founded in 2012, offers a cloud-based monitoring system to improve electric vehicle operations. ViriCiti believes that online energy management is the missing link to full adoption of electric city buses and trucks. By monitoring and analyzing data from electric vehicles up to millisecond level, real-time information on the use, condition and performance of the vehicle can be provided. With these insights, electric city buses and trucks run further, more reliable and at lower cost.
