

We are a dedicated team of web performance experts based in Manchester, focused on building a new kind of CDN. Say 'Hi' via hello@cdnify.com or connect with us on [Facebook](#), [Twitter](#), or [Google+](#)!

Here's our team of pros –

James Mulvany
Founder
james@cdnify.com

James is a serial web entrepreneur who has been building online brands for over a decade. He got the idea for CDNify from one of his existing ventures where he was dealing with the legacy CDN market.

Mike Cunsolo
Marketing Manager
mike@cdnify.com

Mike is responsible for implementing our product marketing strategies - He comes from a digital agency background and has previously launched products and campaigns for LG, Mozilla, and Scotch & Soda.

John White
Back-end Developer
john@cdnify.com

John is our technical guru – He heads up the development team and has built CDNify from the ground up.

Nick Todd
Back-end Developer
nick@cdnify.com

Before Nick was a developer, he was a locksmith – This gives him a perfect background for cracking a lot of our database and infrastructure issues.

Victor-Sorin Paunescu
Back-end Developer
victor@cdnify.com

Victor is a first class software developer that helps craft new features and integrates the latest tech.

Ben Briggs
Front-end Developer
ben@cdnify.com

Ben is a UX expert, he ensures that the look and feel of CDNify is perfect so it's easy to use and looks awesome.

Rostislav Chuklin
Front-end Developer
ross@cdnify.com

Ross makes sure every aspect of the front-end is up to speed and cutting edge, whether that's graphics or the usability side of things.

Aaron Corkin
Customer Success Manager
aaron@cdnify.com

Aaron is powered by coffee, it's what makes him tick to ensure everything is running smoothly around the clock and that all our clients are happy.

Josh Backhouse
Developer Evangelist
josh@cdnify.com

Part of the CDNify support team – Josh is the key ingredient to help resolve problems by working with our developers so that services are up 24/7.

Jamie Ashbrook
Community Manager
jamie@cdnify.com

Jamie helps manage our social media activity, wrangles the community together, and produces content for all channels.
