## SUMMARY

*From 30 september until 2 october Nectar, the Dutch startup that is aiming to revolutionize 3D printing, is participating in the 19th edition of the TCT Show in Birmingham. At the TCT Show Nectar will unveil the Nectar One for the first time. The TCT Show has been the launch pad for innovation for almost two decades, making it the ideal spot to introduce the 3D printer to its potential users. Want to discover which usability, versatility and safety features Nectar One is bringing to your 3D printing experience? Visit Nectar at the TCT Show; stand G48.*

**N**ectar, the Dutch startup that is aiming to revolutionize 3D printing, will be participating in the 19th edition of the TCT Show in Birmingham on 30 september until 2 october. At the TCT Show Nectar will unveil the Nectar One for the first time. The TCT Show has been the launch pad for innovation for almost two decades, making it the ideal spot to introduce the 3D printer to its potential users.

The TCT is held annually and showcases almost 200 exhibitors. The event features the entire spectrum of 3D printing. Expected is that over 10.000 attendees from over 50 countries will visit. The inspirational speakers, cutting edge technology and innovative initiatives are all accessible with no entrance fees for attendees. Making the TCT Show a great event to visit for a wide range of visitors.

## ABOUT NECTAR

Nectar is a Dutch startup aiming to revolutionize 3D printing in the fields of usability, versatility and safety.

Our mission is to improve people's opportunities to innovate. We do this by making powerful technology more accessible. We believe that with the right technology and mindset there isn't a problem that can't be solved.

For our future we envision a world-wide-web of 'Nectar Hives'. Inspiring places where our talented engineers, designers and thinkers can come together to join forces. A place where they can feel free to meet, move, play, experiment and try again.

Let's create a future without boundaries. Together.

Help us spread the word.
