

360social, a new browser extension that offers unlimited social profiles

02 DECEMBER 2014, AMSTERDAM, THE NETHERLANDS

SUMMARY

360social is a platform for discovering and contacting people, has launched a Chrome extension which allows you to look-up a person's publicly available information with virtually no effort. To get started, all you need to do is install the extension from the Chrome Web Store. In order to use it, you just need to browse the Web as you would normally do, with the only difference being that when you visit sites that support the 360social tool, its little icon will show up in line with results. All you need to do is move your mouse over it and the Chrome sidebar will pop up revealing more information about the person. So, you can quickly see what someone looks like, where they are based, what they do, and where they are active online, without navigating away from what you were doing before.

360social is a browser plug-in that shows the social footprint of all profiles of every social media platform. The plug-in works on the whole web and covers over 200 popular social networks. 360social, founded and based in Amsterdam, the Netherlands, shows you everything about everyone. It allows marketers, recruiters and sales professionals to receive unlimited social data in a neatly structured sidebar without having to leave the site one's currently on. By simply hovering over any social link or e-mail address, 360social shows a complete profile, with real time updated and 100% verified information, including contact information, picture, brief bio and social links.

When browsing the web, 360social will automatically display a small icon whenever the client hovers over an e-mail address, Twitter handle or link to a social profile, resulting in a complete personal social profile of the person our client is interested in.

360social enables professionally online connection between people in a simple, fast and efficient way. Simply [download](#) the Chrome extension.

THE WORLD AT YOUR FINGERTIPS
If you're a Marketing, Sales, or Recruiting professional, you'll love our product. Take a moment to discover why.

360 360social is a browser plug-in that shows the social footprint of the people you want to connect with right inside your inbox and browser.

Unlimited profiles
We don't limit our search to a confined database, but instead we search the whole web every time you use our plug-in. So we do the math and combine all profiles of every social and that's how many profiles we cover.

100% verified information
Other plug-ins simply display links and images they have found and you may find yourself clicking on dead or expired links. We check and double check each link to make sure our results are always correct, up to date and working.

Works everywhere
Our plug-in works across more than 200 popular social networks. You'll get all the social data in a neatly structured sidebar without having to leave the site you're on. Hover over any social link or email address & watch while we give you the whole picture. It's that easy.

SEE EVERYTHING

360social is a browser extension that lets you learn more about the people you don't know and connect with them. As you browse the web.

360social dynamically displays contact information, including a profile picture, brief bio, contact details, and social links.

SO, HOW DOES IT WORK?

As you browse the web, 360social will automatically display a small icon whenever you hover over an email address, Twitter handle, or link to a social profile.

That person's profile is automatically displayed in a sidebar revealing what a person looks like, where they're based, and what they do. So just hover & discover!
