HP Launches the World's Most Secure
Large Format Printers for GIS mapping
Adds HP Secure Boot and Whitelisting to
HP DesignJet T1700 printers for enterprise
and government

Amstelveen- January 30, 2018 — HP Inc. today introduced HP DesignJet T1700 printers, next-generation 44-inch solutions for CAD and geographic information system (GIS) workgroups to produce highly accurate documents and maps with powerful processing and a new level of security. New added features on the HP DesignJet T1700 make it the most secure large format workgroup printer available today¹. The improved security is designed to help enterprises print CAD and GIS applications while protecting printers and data from unauthorized or malicious access in infrastructure construction, urban planning as well as utilities industries such as oil, water, gas, and electricity. “Security is a top concern in enterprises today as connected devices and increasingly open office spaces are pervasive. At the same time, data breaches are growing at an alarming pace. In the first half of 2017, the worldwide breach level index was up more than 160%,²” said Guayente Sanmartin, General Manager and Global Head, HP Large Format Design Printing, HP Inc. “The HP DesignJet T1700 Printer Series includes unique advanced security technologies designed to keep corporate network printers, their documents and data protected.” Features include a new self-encrypting hard drive on the printer ensures it is only readable by the printer itself, even if removed from the device. For additional device security, HP Secure Boot ensures BIOS protection, and Whitelisting³ only allows approved firmware to be installed and run on the device. Workgroups print seamlessly with a powerful processor GIS files are constantly growing in size with the increase in their complexity and data. To smoothly process this information and improve the printing experience of GIS practitioners, the new 44-inch HP DesignJet T1700 printer offers a new, powerful processing architecture using a 500 GB hard disk. As the first workgroup large-format printer to embed the Adobe PDF Print Engine⁴, it can more efficiently handle very heavy files. As a result, PCs can be freed in virtually no time to continue working. The HP DesignJet T1700 also brings improved color quality and precision for more accurate maps and renderings, enabling GIS workgroups to make better decisions. A new set of six HP Bright Office Inks with tuned colors profiles and a High Density Printhead deliver bold color and accurate image quality, in addition to more precise colors, including gray and soft tones. Additionally, HP Click printing software included in this series can be used by everyone on the team to easily print project sets and PDF documents. About HP HP Inc. creates technology that makes life better for everyone, everywhere. Through our portfolio of printers, PCs, mobile devices, solutions, and services, we engineer experiences that amaze. More information about HP Inc. is available at <http://www.hp.com>. (1)Based on internal analysis of current workgroup large-format printers for CAD and GIS. Workgroup

large-format printers are color printers with printing speeds below 3 A1/D-size pages-per-minute and prices below \$10,000. (2)Breach Level Index 2017 H1 Report, Gemalto. (3)The Whitelisting feature will be available in mid-2018. (4)Requires purchase of HP DesignJet T1700 PostScript® models or optional HP DesignJet PostScript/PDF Upgrade Kit. The Adobe PDF Print Engine (APPE) is Adobe's high speed, high fidelity print platform. Version 4 extends APPE's leading edge for print reproduction with new performance efficiencies and breakthrough rendering features. APPE 4 enables printers to increase workflow efficiency and capitalize on the profit potential of innovations in inkjet print technology. To learn more, visit <http://www.adobe.com/products/pdfprintengine>. Adobe® PDF Print Engine is a registered trademark of Adobe Systems Incorporated in the USA and/or other countries.

Forward-Looking Statements This news release contains forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of HP Inc. and its consolidated subsidiaries ("HP") may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including but not limited to any projections of net revenue, margins, expenses, effective tax rates, net earnings, net earnings per share, cash flows, benefit plan funding, deferred tax assets, share repurchases, currency exchange rates or other financial items; any projections of the amount, timing or impact of cost savings or restructuring and other charges; any statements of the plans, strategies and objectives of management for future operations, including the execution of restructuring plans and any resulting cost savings, revenue or profitability improvements; any statements concerning the expected development, performance, market share or competitive performance relating to products or services; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on HP and its financial performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing.

Risks, uncertainties and assumptions include the need to address the many challenges facing HP's businesses; the competitive pressures faced by HP's businesses; risks associated with executing HP's strategy; the impact of macroeconomic and geopolitical trends and events; the need to manage third-party suppliers and the distribution of HP's products and the delivery of HP's services effectively; the

protection of HP's intellectual property assets, including intellectual property licensed from third parties; risks associated with HP's international operations; the development and transition of new products and services and the enhancement of existing products and services to meet customer needs and respond to emerging technological trends; the execution and performance of contracts by HP and its suppliers, customers, clients and partners; the hiring and retention of key employees; integration and other risks associated with business combination and investment transactions; the results of the restructuring plans, including estimates and assumptions related to the cost (including any possible disruption of HP's business) and the anticipated benefits of the restructuring plans; the resolution of pending investigations, claims and disputes; and other risks that are described in HP's Annual Report on Form 10-K for the fiscal year ended October 31, 2015, HP's Quarterly Reports on Form 10-Q for the fiscal quarters ended January 31, 2016, April 30, 2016 and July 31, 2016, and HP's other filings with the Securities and Exchange Commission. HP assumes no obligation and does not intend to update these forward-looking statements.
