

OnePlus 5T with 'A New View' now available on SOUQ.com

The highly anticipated device marks the introduction of a 6-inch Full Optic AMOLED Display to deliver a more immersive viewing experience

15th January 2018, Kingdom of Saudi Arabia: SOUQ.com today announced the launch of the highly anticipated OnePlus 5T, latest premium smartphone from global mobile technology company OnePlus. This impressive device boasts a 6-inch Full HD AMOLED panel with 18:9 aspect ratio to deliver a more immersive viewing experience. OnePlus has moved its famously fast ceramic fingerprint sensor, which unlocks the phone in under 0.2 seconds, to the back of the device to ensure OnePlus 5T's seamless front design. In addition to enhancing the visual appearance of the device, the larger display offers an enhanced overall user experience. The OnePlus 5T is only available in limited stock on SOUQ.com in the KSA, at SAR 2,249:

The OnePlus 5T takes advantage of one of the most powerful and energy efficient platforms on the market, the Qualcomm® Snapdragon™ 835. The Adreno 540 GPU boosts graphical performance, so users can play demanding games smoother than ever before. Available in a configuration of 8GB RAM and 128GB storage, the OnePlus 5T is an exceptionally fast Android smartphone. Built out of anodized aluminum and boasting a slim body with stamina at just 7.25mm, the OnePlus 5T embodies the visual identity and strong performance features of a high-end smartphone.

Created around the “never settle” mantra, OnePlus creates an exquisitely designed devices with premium build quality and high-performance hardware. Newly added to OxygenOS is Face Unlock, which allows OnePlus users to unlock their phone just by looking at their device. One of the fastest on the Android market, Face Unlock uses over 100 identifiers to unlock the OnePlus 5T. Similar to its approach to hardware, OnePlus' approach to software is centered around an experience that is refined, efficient and minimalistic.

Ronaldo Mouchawar, CEO & Co-Founder of SOUQ.com commented, “We are always looking for ways to make the latest and best-in-class technologies easily accessible to our customers. We are pleased to collaborate with OnePlus to bring OnePlus 5T and keep our customers up to date with the best smartphone technologies”

Carl Pei, Co-Founder of OnePlus said, "We love nothing more than offering our community the best of technology and a user experience to beat expectations" said Carl. "Once again, we work hard to refine every last detail of our products from both a hardware and a software perspective. The tech savvy smartphone users in the Middle East deserve a phone that looks great and at the same time works effortlessly to any command given. Collaborating with SOUQ.com allows us to further grow our relationship with our community in the region”

A quick half-hour charge gives the OnePlus 5T enough power for the day. By carrying more current and shifting the power management from the handset to the adapter to keep the phone cooler during charging, Dash Charge can continue to fast charge the OnePlus 5T even while using GPS or playing graphically intensive games. The OnePlus 5T offers a smooth experience through a combination of powerful hardware and intelligent software that works seamlessly together. The OnePlus 5T can run a large number of apps in the background without a single second of lag, allowing users to switch between apps with ease.
