

OnePlus 6 is now available on SOUQ.com

The highly anticipated device introduces the biggest screen OnePlus has ever on a phone with an all glass design to deliver a more immersive experience

4 June 2018, Dubai, U.A.E.: SOUQ.com has announced the launch of the much-awaited OnePlus 6 exclusively for SOUQ customers in the UAE and KSA.

Offering a truly immersive viewing experience, OnePlus 6 has the biggest screen OnePlus has ever put on a phone in a new all-glass design, and displays more content than ever before. With a screen of 6.28 inches in size and 19:9 aspect ratio, OnePlus users will be able to see more at once.

Crafted with precision and care, the phone is covered in Corning Gorilla Glass 5 on both the front and back for an incredibly resilient and malleable build. Equipped with weather protection, the use of waterproof materials in the headphone jack and fingerprint scanner prevents damage to key components.

For faster speeds and better performance, the device is powered by the latest Qualcomm® Snapdragon™ 845 Mobile Platform along with Adreno 609 GPU which speeds up performance by 30% and lowers power consumption by 10%. Whether you're downloading a movie, playing a game or sharing a photo on social media, everything on the OnePlus 6 is fast and smooth.

Equipped with the new 16MP + 20MP dual rear cameras with Optical Image Stabilization for high resolution and speed resulting in fast, crisp and steady photos. The rear camera can now also shoot up to a minute of slow motion footage at a time, at 480fps in a 720p resolution.

Similar to OnePlus 5T, the handset also feature's Dash Charge, giving the OnePlus 6 'a day's power in half an hour with the battery size remaining the same.

Ronaldo Mouchawar, CEO & Co-Founder of SOUQ.com commented, “At SOUQ, we focus on providing easy access to latest technology and sought-after products to empower our customers. We are pleased to offer our loyal customers OnePlus 6 exclusively on SOUQ.”

The OnePlus 6 is now available on SOUQ.com in two different colors. Mirror Black variant is coated with a mirror sheen, giving it the look and feel of ceramic. For a more subdued appearance, the Midnight Black offers a clean matte look. There are 6GB and 8GB of RAM combinations, and two storage options to choose from, with 64GB, 128GB, 256 GB available in dual sim.
