

FFWD 1K DISC WHEEL

FFWD WHEELS INTRODUCES SUPER LIGHT DISC WHEEL FOR TRACK AND TRIATHLON WITH 1K CARBON LAYERS!

FFWD Wheels offers a broad range of carbon wheels for different categories, whether it be for road, track or triathlon we offer many high-end wheels. On the track and in triathlon out DISC has been a very much loved and appreciated wheel by riders for many years.

We are now applying 1k carbon layers (instead of 3k carbon) in the production of the new FFWD DISC resulting in a spectacular light disc wheel that weighs only 980 grams! With the incredible low weight and maintained stiffness this wheel will offer the best performance on the track or in triathlon and time trials.

DISC Tubular:	980 gr - 1599 Euro
DISC FCC:	1350 gr - 1999 Euro
DISC-T:	1030 gr - 1399 Euro
