

# FFWD OUTLAW

Go Anywhere.

08 SEPTEMBER 2016

## SUMMARY

*After 10 years of building wheels for the road, track, cyclocross and triathlon we are very proud and excited to announce our MTB wheels: OUTLAW!*

**For 10 years FFWD Wheels has been focussed on building the best carbon wheels for Road, Track, CX and Triathlon. In all these categories our experience and craftsmanship have resulted in many victories by providing the athletes the confidence to go fast.**

Today, after our 10 year anniversary and activity in above mentioned categories, we are expanding our product range. Being the passionate cyclists we are, with focus on wheels, we stay close to ourselves by adding a new category; MTB!

In our development process over two years we have searched and considered different specs and configurations that would meet our high standards in comparison to the products we deliver. Different models went into the field under the bikes of hard core MTB riders to face all possible surfaces and obstacles. With these tests we got the confidence that our OUTLAW wheels will make you go faster, go further or even go anywhere...

Within our MTB category we are launching two full carbon wheel sets under the model name OUTLAW. One model for Cross Country (XC) and one model for All Mountain (AM) use, which are both available in 27,5 inch as well as 29 inch.

The sets are different in specs from the height and width of the rim but share the same carbon rim layup, being tubeless ready and feature an asymmetric spoke setup for optimal stiffness and superb handling.

Find all specs in detail in the below PDF document!

## ABOUT FAST FORWARD WHEELS

Building fast, strong carbon wheels: that was our goal as we started our company FFWD Wheels in the year of 2006. Craftsmanship, high quality and durability are our most important values. In a few years of time FFWD Wheels has grown into a company with a global distribution network and a solid reputation.

All FFWD Wheels are handmade at our company in the Dutch town of Zwolle. Our wheel builders pay close attention to every wheel. This leads to wheels which are feather light and strong as iron: FFWD Wheels are no mass product. FFWD Wheels are of high quality, hand built in the Netherlands.

FFWD Wheels does not only produce high-end wheels for the Road, we also build wheels for the Track, Cyclocross, Triathlon and MTB.
