

One more Schipper joins TeamFFWD

Lieuwe Schipper joined the team at our HQ in Zwolle at the start of this year. As the youngest brother of Idsart and Jurre, he steps into a role on the technical service side.

Over the past few months, Lieuwe has completed an intensive internal training program in wheel building and hub maintenance within our service department. Work that clearly comes naturally to him.

Service is one of the key values at FFWD and strengthening our team allows us to further enhance this. Ultimately, this benefits the entire supply chain. When a customer (distributor, dealer, final consumer) requires service, the speed and quality of the process make all the difference.

Since the founding of FFWD, this commitment to deliver outstanding service has remained unchanged. Over the past 20 years, we have built a strong reputation. Not only for fast turnaround times on repairs, but also for our solution-oriented approach in supporting our customers. In the first months Lieuwe showed that this mentality is also part of his DNA.

Have a question? Don't hesitate to get in touch. We're easy to reach by email or phone.
