ABOUT FASTNED

Fastned is a charging company that is building a European network of fast charging stations where all electric cars can charge as fast as possible. The stations are located at high traffic locations along the highways and in cities, where electric cars charge in an average of about 20 minutes. This will give electric cars the freedom to drive across Europe. As of today, Fastned has 90 stations operational in the Netherlands and Germany and is working on expanding its fast charging network to the rest of Europe. Fastned is simultaneously building fast charging stations in the Netherlands, Germany and the United Kingdom and is preparing for expansion in Belgium, Switzerland and France.
