

Staff Ambassador TP5 Seeding

Within the next few days, you are set to receive a dozen “Proto 5” and Proto 5x” golf balls. These are the same prototype balls that have been tested by our PGA TOUR staffers and their initial reactions have been nothing short of amazing.

We are excited to get these new golf balls into your hands so you can experience the amazing performance for yourself. We also encourage you test the ball against any other competitor in the market — you won’t be disappointed. Please be sure to share your experience using [#ExperienceTaylorMade](#) [#TP5](#) and [#TP5x](#).

For a glimpse into some early feedback from Tour, take a look at what Jon Rahm had to say when he first tested *The Most Complete Tour Ball*.
