# Otrium nominated in the top 10 for Deloitte's Rising Star

**Following the publication of the fifty fastest growing technology companies in the Netherlands, [the ten Rising Star nominees](#) of Deloitte Technology Fast 50 were announced.**

The Rising Star is the award for the most promising young tech start-ups in the Netherlands and part of the [Deloitte Technology Fast 50](#). Tech companies under the age of four automatically take part in the Rising Star category.

These promising start-ups are judged by an independent jury on ambition, turnover potential, scalability and innovative power.

The other nominees are Amber, Apoc Aviation, Channable, Hotelchamp, Lone Rooftop, Recrutee.com, Temper, Vamp and ZIVVER.

At Otrium you can get access to the online outlets of famous and upcoming brands. The online platform facilitates the complete technology and logistics for the fashion brands, so they don't have to invest themselves to open an (online) outlet. Thanks to Otrium's innovative technical and logistical platform, customers get an optimal e-commerce experience.

## ABOUT OTRIUM

We're here to unlock the full potential of fashion outlet online. Otrium's full-service marketplace enables fashion brands to open an outlet store with zero effort and all the benefits. Through their Otrium store brands can sell outlet and previous collections to an online community of fashion lovers, while keeping full ownership of all items until sold. By opening a sale channel on Otrium's online marketplace, brands get faster turnover on their outlet and previous collections, access a fast-growing international shopping community and gather insightful data on their sales and following. We offer a full-priced service on off-priced collections. Our marketplace is brand strengthening and our customers always have a first-class shopping experience.
