

DOCOMO PACIFIC deploys Starlink Mobile for customers, offering free emergency connectivity

Tamuning, Guam (July 4, 2026) - As Guam and the Marianas prepare for Tropical Storm Bavi, DOCOMO PACIFIC is collaborating with Starlink Mobile, the largest satellite-to-mobile network in the world, to deliver emergency connectivity to customers, businesses and communities when they need it most.

The service will offer SMS messaging should terrestrial mobile networks become unavailable. Customer devices will automatically connect to Starlink Mobile with no additional action required.

This added layer of resilience extends across Guam and the Marianas, including nearby surrounding waters. It reinforces DOCOMO PACIFIC's commitment to providing connectivity and solutions that support public safety and well-being.

About DOCOMO PACIFIC

DOCOMO PACIFIC is your locally rooted quad-play provider in the Marianas. As a wholly owned subsidiary of NTT DOCOMO, Japan's leading mobile network operator, we proudly invest in Guam and the CNMI—powering homes and businesses with 5 GIG symmetrical fiber internet, 5G LTE, telephone services, and the dTV+ entertainment app.

Our enterprise solutions include Information Technology and Managed Services, FirstNet, MaxTrack Fleet Tracking, and a range of carrier services. Together, we are driven by community, focused on growth, and committed to being by your side.

We are dedicated to bringing you *Tomorrow's Islands, Today*.
