GET CONNECTED

## For the Riders

### ▣ INVISIBLE RIDE LOGGING

Hassle-free ride tracking. An integrated Wheel Sensor that instantly starts recording when you start riding. No need to press start.

### ▣ BIKES ARE BETTER

See how you and the Cannondale community are reducing your carbon footprint every time you choose to ride instead of drive.

### ▣ SMART SERVICE

Automatic service reminders based on ride hours, curated video content, and service records help you keep your bike healthy.

### ▣ WE'VE GOT YOU COVERED

Don't waste time searching, every detail about your bike from the seat height to what type of chain you have is stored in one place - at your fingertips.

## For the Bike Shop

### ▣ MORE BIKE SHOP VISITS

We'll be driving more visit through service reminders, promotion of bike maintenance and health, and Find Your Dealer for potential new customers.

### ▣ DEALER MODE

Access the Dealer-only mode to better serve your riders with content, log service history and record service information.

### ▣ INFORM YOUR RIDERS

Through service bulletins, tech improvements, tips and new bike launches, we'll help to increase awareness, information and maintenance.

### ▣ EASY TO ONBOARD

Connecting your riders can be done right on the shop floor. Download the app, spin the integrated Wheel Sensor or scan the serial number. Add value before they ride away.
