KICKR_{BIKE}

THE COMPLETE
INDOOR TRAINING
SOLUTION

YOUR FIT

Our simple and intuitive Wahoo Fitness App, offers guided instructions on how to match your KICKR BIKE's fit to your outdoor bike's exact geometry.

Set-Up App helps you match the exact geometry of your outdoor bike.

Six different adjustment points allow you to dial in saddle height, reach, crank length and more for optimal comfort and performance.

YOUR KIT

KICKR BIKE uses industry standards, allowing you to customize it with your own handlebars, saddle and pedals.

YOUR SET

Programmable compatibility allows you to match the gear ratios of group sets and functionality from leading manufacturers and receive realistic feedback from each gear shift.

SHIMANO
Di2
DIGITAL INTEGRATED INTELLIGENCE

SRAM
R2U²

Get the most out of your training by selecting exact gear ratios, including the number of speeds and even cassette tooth count.

A clear digital LED display shows gear settings and grade to let you maximize efficiency and power at any stage of your ride.

wahoo

YOUR RIDES

KICKR's BIKE combines KICKR's legendary resistance and grade simulation technologies to replicate the sensation of riding outdoors.

KICKR BIKE simulates grade changes in real time, including downhill simulation that allows you to maintain wheel speed during descents.

KICKR BIKE's large flywheel uses proven algorithms that improve responsiveness offering an unrivalled indoor ride experience.

ALWAYS READY TO RIDE

As with all Wahoo trainers, KICKR BIKE is compatible with the most popular training apps like The Sufferfest, Zwift, TrainerRoad and more, so you can ride your way.

KICKR BIKE fits a wide range of rider sizes and can be quickly reconfigured for multiple users.

KICKR BIKE integrates seamlessly with Wahoo ELEMNT bike computers, sensors and accessories to provide a complete training experience.

wahoo

REALISTIC RIDE FEEL	The KICKR BIKE flywheel and enhanced motor is an innovative technology that emulates the power and inertia experienced during outdoor riding. It provides the most realistic ride feel especially when using virtual riding/training platforms like Zwift and The Sufferfest.
RIDE READY	Always set up and ready to ride. KICKR BIKE offers the ultimate in convenience for those who want to go from zero to ride as quickly as possible.
CALIBRATION FREE	Out of the box KICKR BIKE continuously offers accurate power and doesn't require calibration
POWERFUL CONNECTIVITY	Multiple Bluetooth connections available to ensure a trouble-free start to your workout
TRUE FIT	Tailor the fit of the KICKR BIKE to fit your body by adjusting standover height, saddle height, setback, reach and stack height
CUSTOMIZABLE COMPONENTS	Customize your saddle, crank length, handlebars and pedals to dial in your perfect KICKR BIKE setup.
VIRTUALLY SILENT OPERATION	KICKR BIKE continues the KICKR tradition of offering a near silent indoor cycling experience
CUSTOMIZABLE COMPONENTS	Customize your saddle, crank length, handlebars and pedals to dial in your perfect KICKR BIKE setup.
EXACT GEARING	Replicate your outdoor bike down to the exact gearing configuration. Crankset and Cassette are fully customizable.
+/- 1% POWER ACCURACY	Proven power accuracy that provides accurate power measurement up to 2200W.
REAL TIME GRADE CHANGES	Inclines of up to +20% and declines of -15%
HEAD CONTROL UNIT WITH LED DISPLAY	Quick glance LED display informs the rider of their current gear selection and manual tilt grade
SHIFTER CONFIGURATION	Match the shifter setup of your outdoor bike whether it be Shimano, SRAM or Campagnolo
ANT+, ANT+ FE-C AND BLUETOOTH CONNECTIVITY	ANT+ and Bluetooth capabilities allow it to connect to both smartphones and GPS devices simultaneously or separately. An ANT+ FE-C connection allows the KICKR BIKE to be controlled from any FE-C enabled device or application.
PROFESSIONAL GRADE DURABILITY	Robust aluminum and steel construction ensures the KICKR BIKE stays in place while you crank out the watts and stands up to years of heavy use.
