

## Swiss wheel brand SPENGLER want to meet you at Eurobike and talk carbon

**SPENGLER makes gorgeous carbon wheels, they will be going to Eurobike this year and would love to talk to you about helping you grow your business. They're looking for partners to sell their wheels, that can be as retailers offline/online, distribution, or as part of their OEM program. Interested in talking to any of the guys at SPENGLER?**

- Book a meeting with [Pius Brauchart, the CEO of SPENGLER](#), he would like to talk about carbon and collaborations. He's also interested in discussing OEM and bikes in general, with a full development pipeline and new innovative designs available, Pius is the person to talk to if you want to add something unique to your product offering.
- Talk to [Martin](#) if you want to dive deep into the tech side of carbon. He's the most technical guy of the four and is always happy to talk carbon. He heads-up the marketing function of the business and will have a flight case with prototypes to pique your interest.
- Are you a retailer or distributor? Then you should definitely talk to [Lukas, the business development manager at SPENGLER](#). Also great for talking about OEM and collaborations, he is ready to take your orders.

- If you've seen the wheels, but you haven't tried them out yet, [Simply book in for a test ride](#), SPENGLER will have gravel and MTB test bikes available, and we'll get you on a bike riding those tri-blade carbon monocoque wheels in no-time.

Click on the names of the people you're interesting in meeting and pick a date during Eurobike from 4 till 7 of September. Fill in the details and we're looking forward to talking to you at Eurobike this year!

## **New Collections by SPENGLER & 700c preview version at Eurobike**

SPENGLER is delighted to announce that the Swiss wheel brand will bring their spectacular range of coloured wheels 'Collections by SPENGLER' to Eurobike 2019. Also joining the launch there are the first tangible versions of their exciting new 700c wheels. After the success of the 650b wheels and ever-growing demand, SPENGLER has almost finished developing the new wheel and will bring 3D-printed preview models to this year's show. [More info on the Collections by SPENGLER here.](#)

## **About Spengler**

Established in Switzerland in the 1980s, their technology has come a long way: the SPENGLER Carbon Monocoque wheel has been continuously refined to reinvent modern bicycle-wheel construction. 32 steel spokes have been the norm since the beginning. The big advantage of carbon, however, is that you can have a virtually unlimited amount of spokes in the form of carbon fibres in the blades. This maintains the wheels' form and redistributes impact force for a smoother ride.
