BRADIS
2^{ème} ÉDITION
BRASSER
DISTILLER
SOLUTIONS

FRIDAY JUNE 3RD, 2022
PARIS EVENT CENTER
20 AVENUE DE LA PORTE DE LA VILLETTE - PARIS 19^e

The poster features a central illustration of brewing and distilling equipment in dark blue and light blue, including a still, a fermenter, a bottle, and a glass. The text is arranged in a clean, modern layout with a light beige background.

NOMOQ To Attend BRADIS in Paris, June 8th.

NOMOQ will showcase its innovative can printing technology at the 2nd Annual Brasser Distiller Solutions trade fair & offer an exciting custom art giveaway for attendees from local artists, Galigala Designers.

25 May, 2023 - NOMOQ, on the heels of successful participation at the [Dutch Craft Brewing Festival](#) and [Brew LDN tradeshow](#), will be heading to Paris June 8th to exhibit at [BRADIS, the Brasser Distiller Solutions trade fair](#) in its 2nd year. For several years now, France has seen a strong development in the beer and spirits industry. This includes traditional breweries and distillers as well as newcomers on a market. NOMOQ is excited to be a part of this young up and coming show!

NOMOQ at the BREW LDN trade show & Dutch Craft Beer Conference 2023

Switzerland-based start-up, NOMOQ was founded in 2021 & promises beautifully printed cans with short lead times and “NO Minimum Order Quantity” – hence the name. Their extreme versatility and customer-centric proposition allows beverage companies of every size to flex their creativity and produce stunning packs with almost limitless colour options and photorealistic graphics. NOMOQ’s superb flexibility also enables larger producers to trial new products, implement short-term event-based marketing campaigns, or run special editions with no obstacles on batch size.

Cans have outstanding consumer appeal, being convenient, lightweight, shatterproof, and infinitely recyclable. With a higher proportion of new European beverages now launched in cans, drinks producers are increasingly recognising their exceptional potential for brand-building thanks to the sheer range of customisation options. NOMOQ's passion is making cans into stand-out "works of art", through a graphical capacity that encompasses millions of colours and shades, and several eye-catching finishes: matte, glossy or selective gloss.

Local Parisien artists [Galigala Designers](#) will be painting a custom piece of artwork at the NOMOQ booth at BRADIS to be raffled off at the end of the show. More details at the booth!
