

Veloe® Debuts "Limited Espresso Edition" multi and multi lungo e-cargobikes

08 September 2026 - MILAN, Italy Veloe®, the family-focused e-cargobike brand, today announced the launch of its **Shimano EP5 / Limited Espresso 2026 Edition**. The signature Veloe multi and multi lungo are now available in a custom Espresso finish, combining everyday functionality with Italian craftsmanship to give families endless options for navigating city life in style and carrying what matters most. Both models will be priced at €3199.

Both models are built around Veloe's signature one-size-fits-all frame, proudly manufactured near Milan, Italy, to offer maximum adjustability so everyone in the family can share the same bike.

"The Espresso colorway brings a timeless look inspired by Italian culture to our most versatile models," said Rembrand Neirinckx of Veloe . "By offering this limited-edition finish on both the multi and the extended multi lungo, we are giving urban families the ability to choose the exact longtail wheel setup they need for the simple joy of being on the move."

Powered by the efficient Shimano EP5 mid-drive motor and a reliable Shimano 504Wh battery, both configurations utilize a Shimano Nexus 8 internal hub and a dependable chain drive for smooth, low-maintenance shifting during daily errands and school runs. Veloe offers two distinct longtail configurations in this limited-edition release:

Veloe multi: The agile urban all-rounder with endless possibilities

The standard multi offers a familiar, balanced ride feel, acting as an agile companion that seamlessly handles daily errands or carrying up to two children on the rear rack.

- **Frame:** One-size-fits-all longtail frame, manufactured in Italy
- **Wheel Configuration:** Front 24-inch / Rear 24-inch (delivering a classic, smooth-rolling ride)
- **Motor & Battery:** Shimano EP5 mid-drive unit (60Nm torque) with Shimano 504Wh battery
- **Drivetrain:** Shimano Nexus 8 with Chain Drive

Veloe multi lungo: Built for the Family - Every Phase of Life & More

The multi lungo features an extended rear rack engineered for growing families, making it easy to safely carry up to three children or groceries with total confidence.

- **Frame:** One-size-fits-all extended longtail frame, manufactured in Italy
- **Wheel Configuration:** Front 24-inch / Rear 20-inch offering a lower center of gravity for maximum stability when traveling with kids
- **Motor & Battery:** Shimano EP5 mid-drive unit and Shimano 504Wh battery

- **Drivetrain:** Shimano Nexus 8 with Chain Drive
- **Color:** Limited-Edition Espresso

The limited-edition Espresso Veloe Multi and Multi Lungo longtail e-bikes are available starting today through authorized Veloe dealers. Because this colorway is a limited run, stock is highly restricted.
