Australian beauty brand, **BodyBlendz**, known for their cult-classic authentic coffee scrub and cutting-edge formulas, is making their range with model, entrepreneur and lifestyle enthusiast Blac Chyna - **Blac Chyna X Blendz** - available in Australian retail stores for the first time.

**Blac Chyna X Blendz** was released in the United States last October, and it's been a wild success story. Local demand for the collaboration has driven the brand to expand its Australian retail presence rapidly.

Developed hand in hand with Blac Chyna, the range consists of four products designed for all skin types and provide a clean, fresh glow and instant smoothness. **Activated Charcoal Powder, Konjac** and **Hyaluronic Acid** are just some of the super ingredients featured in the range.

*I wanted to create products that used my favourite ingredients – the ones that really make a difference. I can't take chances on my skin, especially on my face, so I need products that do what they say they're going to do! I'm Blac Chyna, and my products are going to give you real results!*
