# DEVERUS INTEGRATES BULLHORN INTO THE INTEGRATION MANAGER (IM)

Austin Texas, April 5th, 2019-- deverus is excited to announce **Bullhorn** as our newest addition to Integration Manager. Appearing as a “Niche Player” in Gartner’s Magic Quadrant in both 2015 and 2016, Bullhorn is dedicated to helping “customer-obsessed” organizations transform their business relationships (Bullhorn, 2016). PC Magazine awarded the application the title of “Best ATS for the staffing and recruiting industry.”

"deverus' Integration Manager (IM) is taking ATS integrations to a whole new level by providing our clients with the latest technology to quickly integrate with multiple ATSs in weeks not months," said Shawn Rucks, CEO of deverus. "With the addition of **Bullhorn** to IM, our clients can now provide integrated background check services to even more enterprise clients. What's more, they can now use Swifthire Mobile to collect information from the applicant on the front end. This provides a seamless, no touch experience for human resources."

The standard **Bullhorn** integration can be used with or without Swifthire, dependent on the searches needed by the client, and requires minimal configuration within the application.

Consistent with other standard ATS in Integration Manager, integration configuration and client on-boarding can be achieved in less than a week.
