DEVERUS INTEGRATES SAP SUCCESSFACTORS INTO THE INTEGRATION MANAGER (IM)

Austin Texas, May 31st, 2019--deverus is excited to announce yet another ATS/HCM addition to our Integration Manager portfolio.

For the last three years, SuccessFactors has appeared in Gartner's Magic Quadrant for Cloud HCM suites for midmarket and large enterprises competing with applications like Ceridian and HealthcareSource.

"deverus' Integration Manager (IM) is taking ATS integrations to a whole new level by providing our clients with the latest technology to quickly integrate with multiple ATSs in weeks not months," said Shawn Rucks, CEO of deverus. "With the addition of SuccessFactors to IM, our clients can now provide integrated background check services to even more enterprise clients. What's more, they can now use Swifthire Mobile to collect information from the applicant on the front end. This provides a seamless, no touch experience for human resources."

The standard SuccessFactors integration can be used with or without Swifthire and requires minimal, permissions-based configuration within the application. Consistent with other standard connectors in Integration Manager, integration configuration and client onboarding can be achieved in less than a week. For this connector, however, a SuccessFactors consultant is needed in order to complete the security and access configuration within the SF application. In most cases, your client can provide a contact, however we're happy to recommend one should you need it.

ABOUT DEVERUS

Established in 1998, privately-held Austin-based deverus, Inc., helps companies in the background screening industry work better, faster and smarter by providing the highest quality software, SAAS cloud-based solutions,

mobile applications, integrations, compliance, automation, security, privacy and customer support services available. Deriving its name from a blend of Latin and Spanish meaning “from the truth,” deverus helps HR departments make critical hiring decisions using data such as criminal records, education and employment verifications, drug and assessment testing, and more. The company delivers its services to over 35,000 businesses, hiring more than 2.5 million employees per year, through more than 75 trusted partners. deverus is a founding member of the National Association of Professional Background Screeners (NAPBS) the respected screening professionals industry watchdog, and was named a “Best Place to Work” by the Austin Business Journal.
