DEVERUS INTEGRATES TENSTREET TO ITS REVOLUTIONARY INTEGRATION MANAGER (IM)

Austin Texas, April 14th, 2020-- deverus is excited to announce TenStreet as our newest addition to Integration Manager. Tenstreet is the leading provider of driver recruiting software and workflow solutions for the trucking and transportation industry.

"deverus' Integration Manager (IM) is taking ATS integrations to a whole new level by providing our clients with the latest technology to quickly integrate with multiple ATSs in weeks not months," said Shawn Rucks, CEO of deverus. "With the addition of Tenstreet to IM, our clients can now provide integrated background check needs to the trucking industry. What's more, they can now use Swifthire Mobile to collect information from the applicant on the front end. This provides a seamless, no touch experience for human resources."

Our standard integration, built jointly with Tenstreet, requires Swifthire to collect information not commonly, or readily available in the application. As with most of our integrations, clients can be configured in weeks not months.

About Tenstreet
Tenstreet's platform connects carriers and drivers, making it easier to fill trucks while staying compliant. We help thousands of motor carriers and private fleets to market, recruit, onboard, and manage drivers. Since 2006, millions of drivers have used Tenstreet's platform to quickly and securely apply for their next job.
