DEVERUS INTEGRATES CLEAR COMPANY ATS TO ITS REVOLUTIONARY INTEGRATION MANAGER (IM)

Austin Texas, April 22nd, 2020-- deverus is excited to announce Clear Company ATS as our newest addition to Integration Manager. ClearCompany is the world's fastest-growing Talent Management Platform. Clear Company's unique approach puts its company mission and vision at the center of over 2,000 clients' talent processes, providing a strategic understanding of hiring, onboarding and employee performance.

ClearCompany's software provides deverus clients' customers with powerful solutions for talent acquisition, talent management and talent analytics. Through bi-directional data integration and seamless connectivity between ClearCompany and deverus integration manager, enterprise clients can benefit from freedom of choice to build a flexible HR platform based on the strategic needs of their business.

"deverus' Integration Manager (IM) is taking ATS integrations to a whole new level by providing our clients with the latest technology to quickly integrate with multiple ATSs in weeks not months," said Shawn Rucks, CEO of deverus. "With the addition of Clear Company to IM, our clients can now provide integrated background check services to enterprise clients using the Clear Company's Talent Management Solutions. What's more, they can now use Swifthire Mobile to collect information from the applicant on the front end. This provides a seamless, no touch experience for human resources."

Our standard integration, built jointly with Clear Company, requires Swifthire to collect information not commonly, or readily available in the application. As with most of our integrations, clients can be configured in weeks not months.

[About Clear Company](#)

For more than a decade, ClearCompany has helped companies hire, engage and retain hundreds of thousands of A players from among millions of applicants. We designed and built an organic, unified platform to deliver better hiring experiences, seamless onboarding, company-wide goal alignment and performance management, all driven by best practices. ABOUT DEVERUS

Established in 1998, privately-held Austin-based deverus, Inc., helps companies in the background screening industry work better, faster and smarter by providing the highest quality software, SAAS cloud-based solutions, mobile applications, integrations, compliance, automation, security, privacy and customer support services available. Deriving its name from a blend of Latin and Spanish meaning “from the truth,” deverus helps HR departments make critical hiring decisions using data such as criminal records, education and employment verifications, drug and assessment testing, and more. The company delivers its services to over 35,000 businesses, hiring more than 2.5 million employees per year, through more than 75 trusted partners. deverus is a founding member of the National Association of Professional Background Screeners (NAPBS) the respected screening professionals industry watchdog, and was named a “Best Place to Work” by the Austin Business Journal.
