THE NEW ELECTRIC VANMOOF S3 & X3

This spring, VanMoof reveals the next generation of e-bikes, optimized to truly replace the car in the cities of the future – for just €1998.

Reframing the future

With an updated motor, automatic electronic gear shifting, and integrated anti-theft tech, the VanMoof S3 & X3 are custom-tuned for the ultimate riding experience. This new range of e-bikes isn't just the most innovative and powerful VanMoof has ever made, it's set to revolutionize the way we move around cities forever.

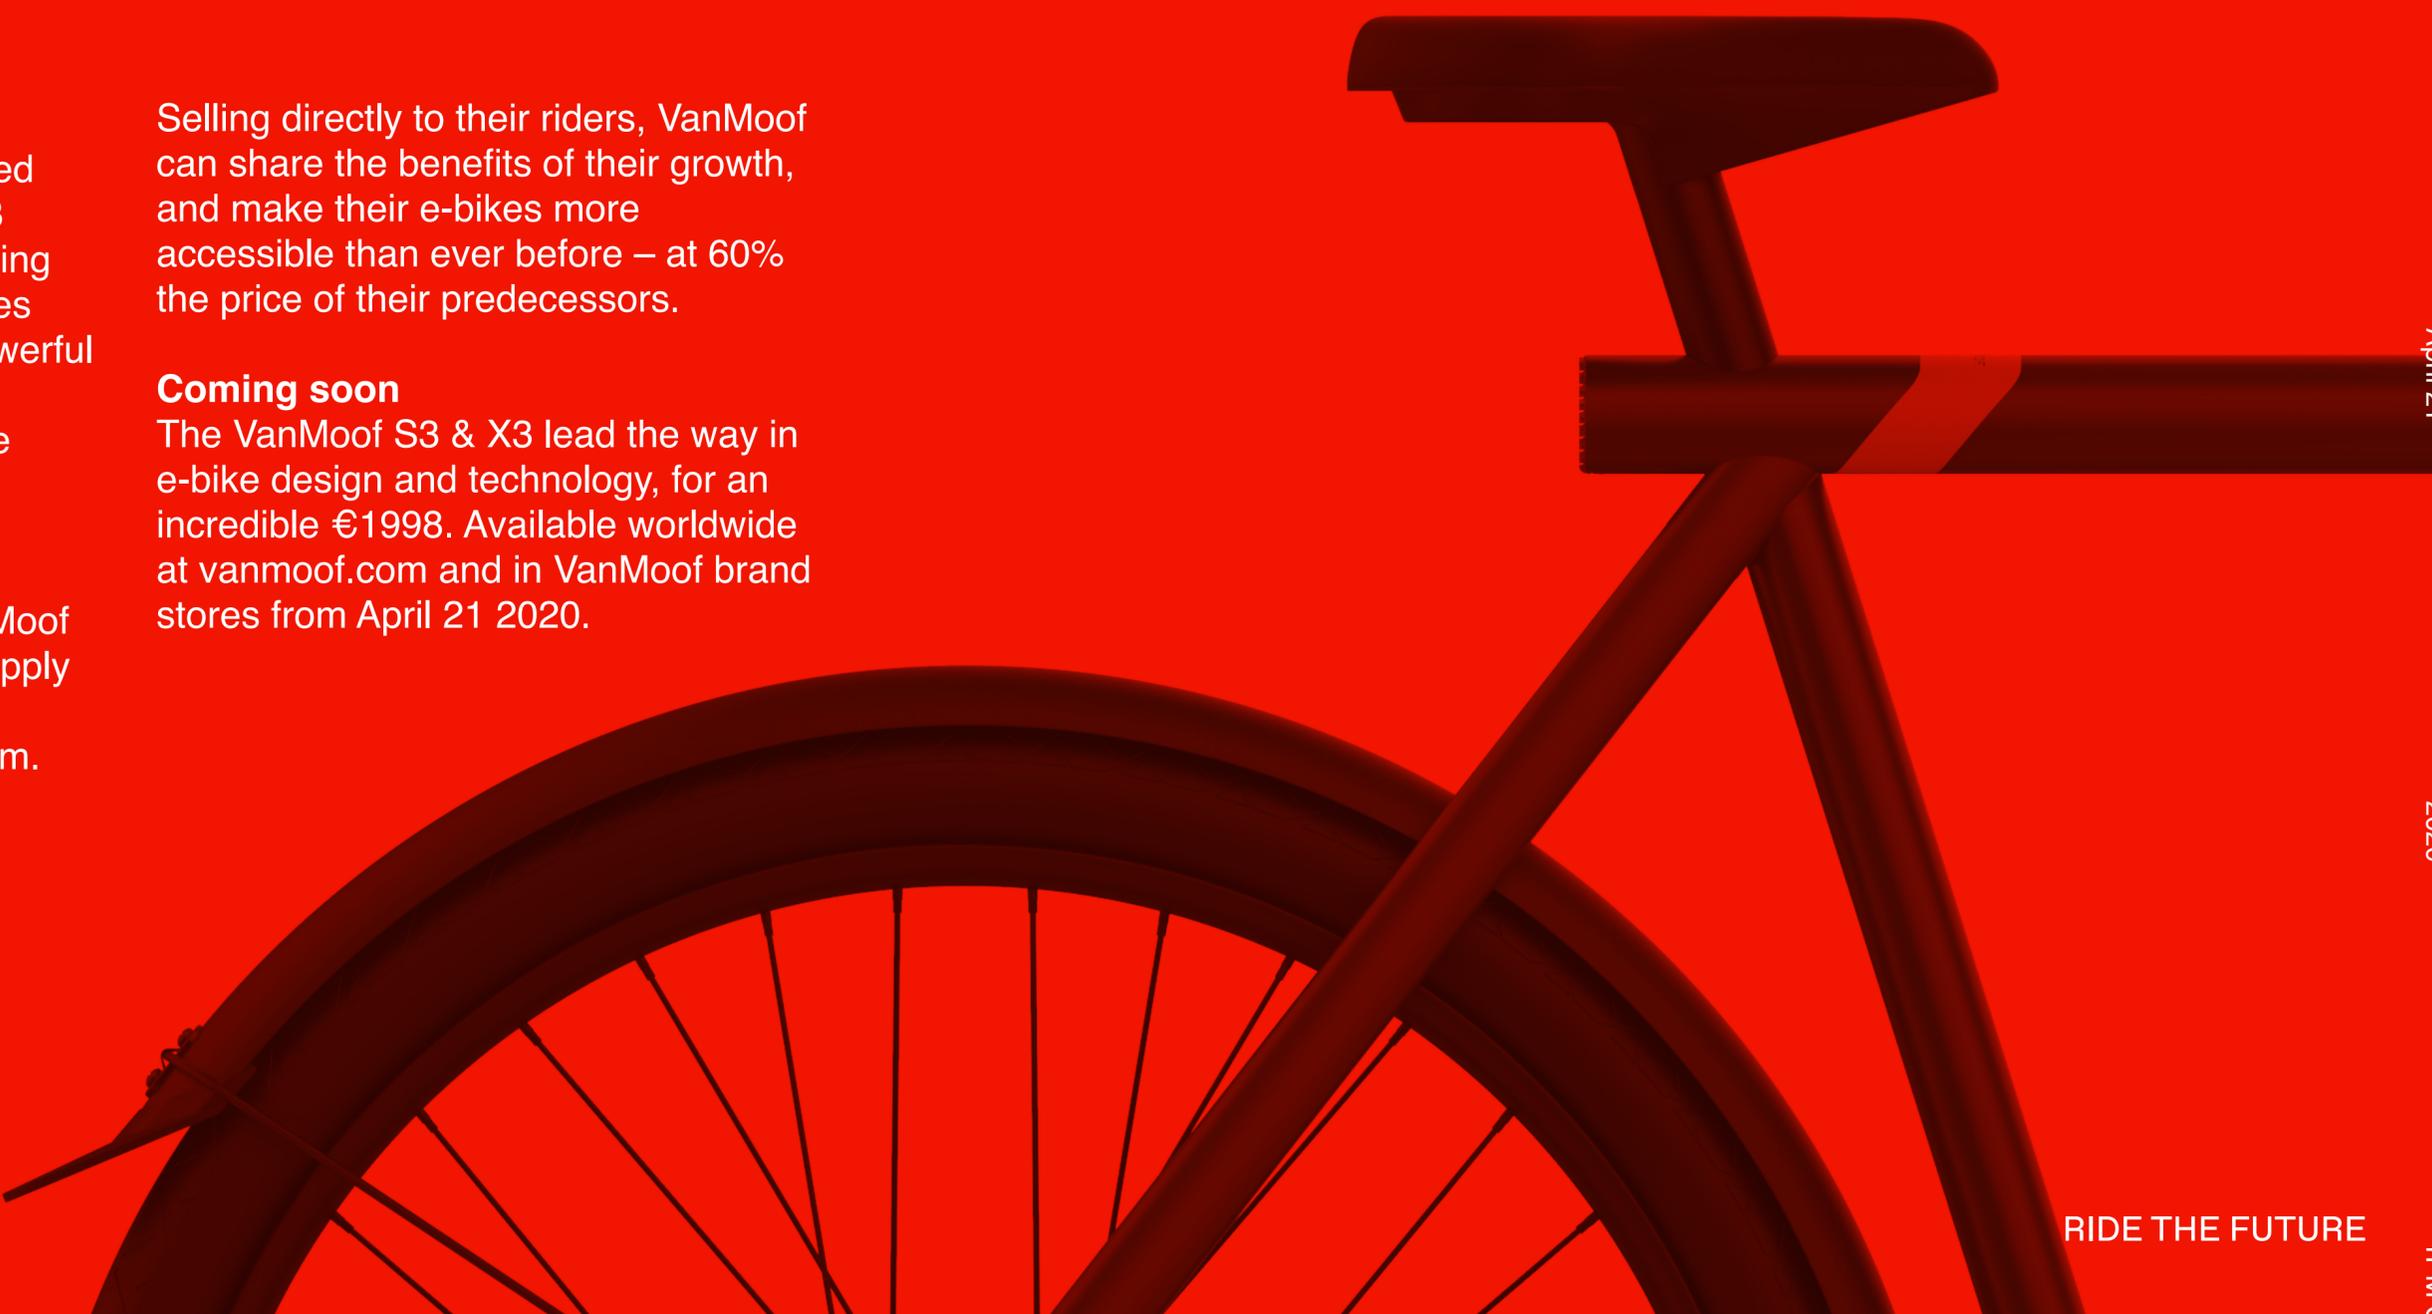

The next billion on bikes

With this new range of e-bikes, VanMoof has taken ownership of the entire supply chain, building a hyper-efficient manufacturing and distribution system.

Selling directly to their riders, VanMoof can share the benefits of their growth, and make their e-bikes more accessible than ever before – at 60% the price of their predecessors.

Coming soon

The VanMoof S3 & X3 lead the way in e-bike design and technology, for an incredible €1998. Available worldwide at vanmoof.com and in VanMoof brand stores from April 21 2020.

ONBOARD THEFT DEFENSE

USELESS TO STEAL

Bike theft is still the main barrier preventing people from riding high-quality bikes. The S3 & X3 further VanMoof's anti-theft pedigree with a host of features specially designed to give thieves nightmares – and make it even easier for our expert Bike Hunters to recover stolen bikes.

- Responsive multi-phase alarms send thieves running.
- Lock down your bike remotely, enabling location tracking and disabling all functionality.
- Peace of Mind guarantees VanMoof will recover or replace your bike if stolen.
- Keep tabs on your bike with integrated location tracking.

Matrix Display

Shows skull when alarm is triggered

PEACE OF MIND

IF YOUR VANMOOF IS STOLEN OUR BIKE HUNTERS GET IT BACK

Peace of Mind is VanMoof's ironclad anti-theft promise. If your bike is stolen, we'll get it back within two weeks, or replace it.

Using VanMoof's industry-leading location tracking they've followed thieves from Morocco to Ukraine – and recover bikes every day around the world.

Report a theft in the VanMoof app, and the ruthless Bike Hunters spring into action to find and recover your bike.

KICK LOCK

BYE BYE, BIKE KEYS

The Kick Lock makes locking your bike easier than using a car key fob. Tap the button near the rear drop-out to engage the lock, blocking the rear wheel while activating the onboard theft defense. Secure Bluetooth rider recognition makes unlocking even simpler – just tap the handlebar button and ride.

- Completely secures the bike with the tap of a toe.
- Immobilizes rear wheel, enables rider recognition, and activates integrated alarms.
- Without a phone, the lock can be unlocked with a backup code.

MATRIX DISPLAY

LIGHT UP YOUR RIDE

166 LEDs bring your top tube to illuminated life – turning the bike frame itself into an interactive screen. Completely sealed and weather-proof, the Matrix Display gives intuitive rider feedback, and allows complete control and customization of settings via the two handlebar buttons.

- Shows speed, power assist level, and current gear while riding.
- Check your charging status and toggle through assist levels.
- Fearsome skull graphics show when alarms are triggered.
- 166 LEDs animate your app-connection, charging status, wake-up and sleep mode transitions, and more.

SUPER SMART ELECTRONICS

LIGHT YEARS AHEAD OF THE COMPETITION

Ten years of innovation have made the S3 & X3 our smartest bikes yet – designed with future functionality and home servicing in mind. The Smart Cartridge is the ‘brains’ of our new range, controlling all onboard systems. And it’ll get only get smarter with time, as new features become available via regular software updates.

- Over-the-air updates bring new features over time.
- Responds to real-time feedback from the motor, giving you more range from a single charge.
- Removable Smart Cartridge enables remote servicing, making it easy to service your bike without visiting a brand store.

POWERFUL MOTOR

GO FASTER, GO FURTHER

The VanMoof motor is designed and tuned it for maximum power and responsiveness. With a sleeker and more compact housing than the previous generation, it runs near-silently – even at top speed.

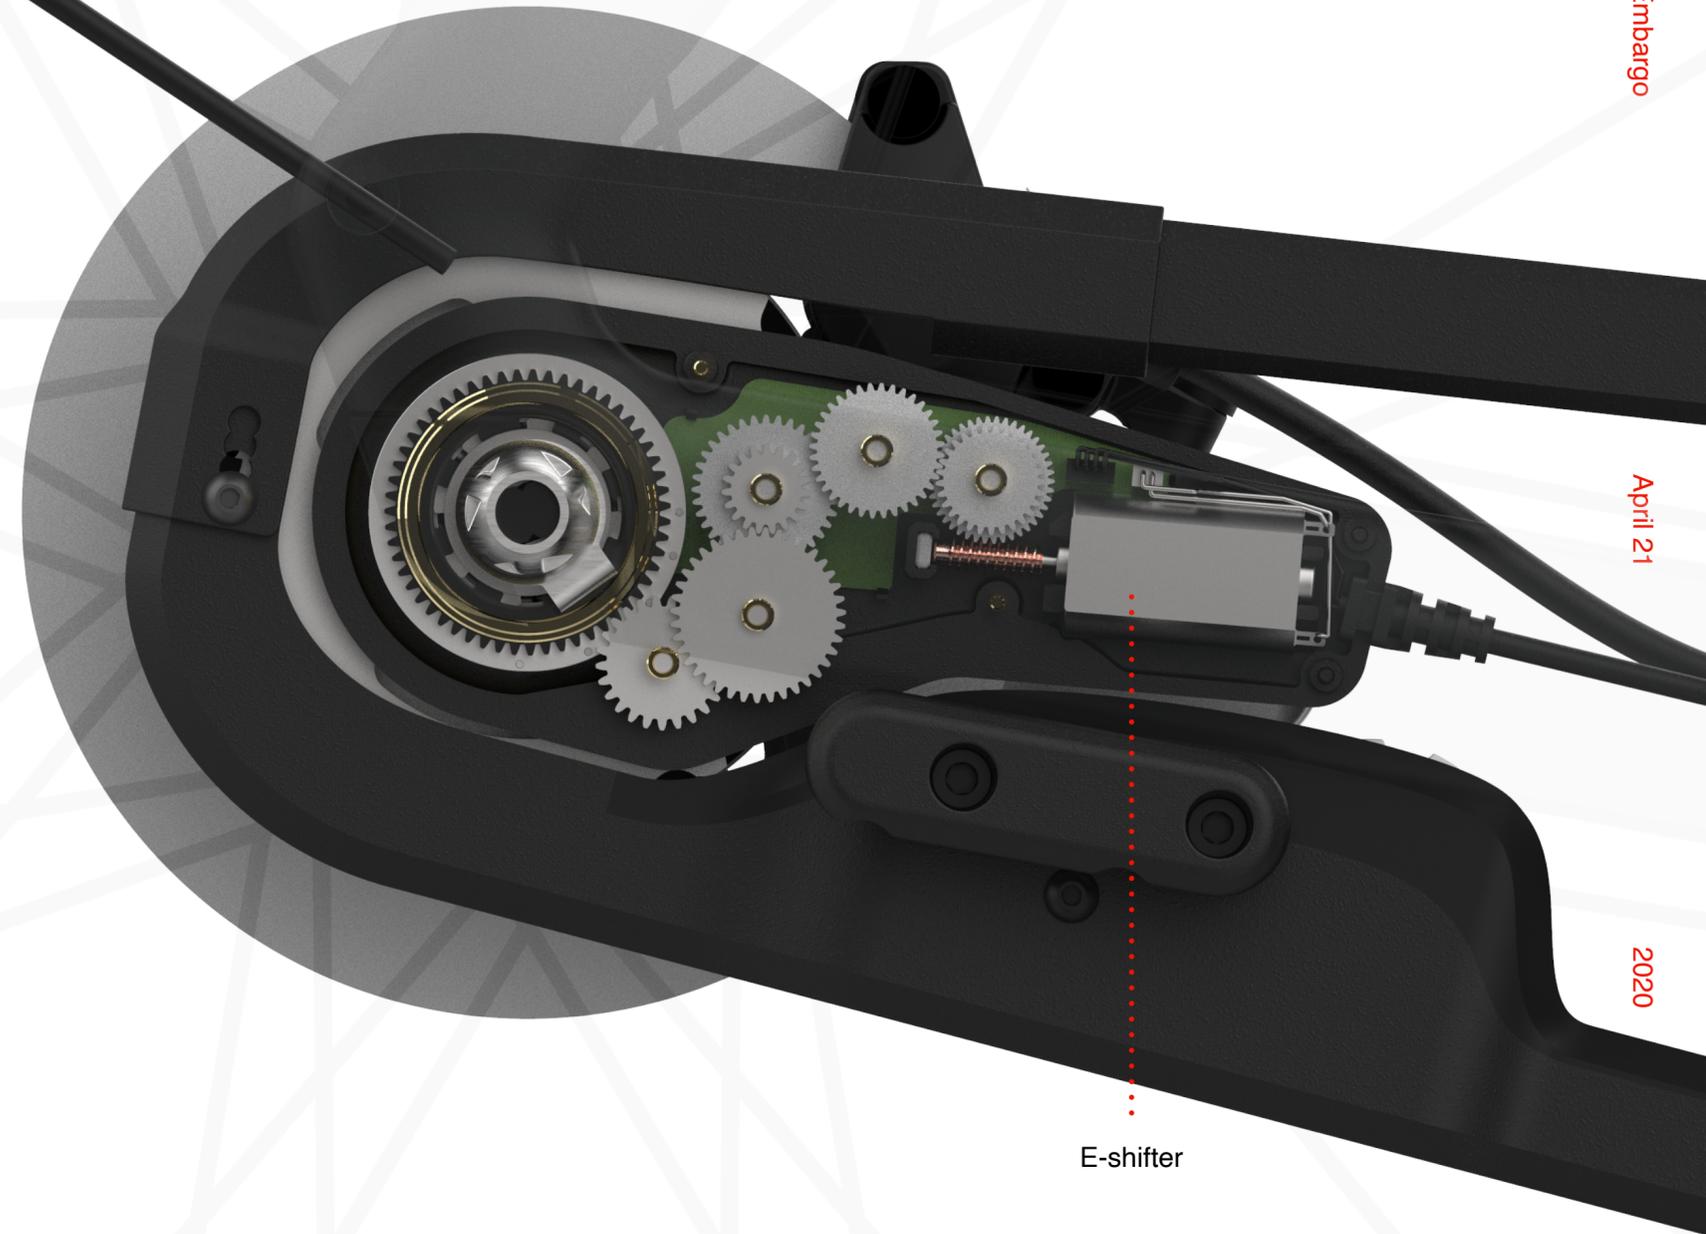

- Amplifies your pedal power by four times.
- Revamped Turbo Boost delivers full torque at the press of a button.
- Intelligent power management maximises range.

ELECTRONIC GEAR SHIFTING

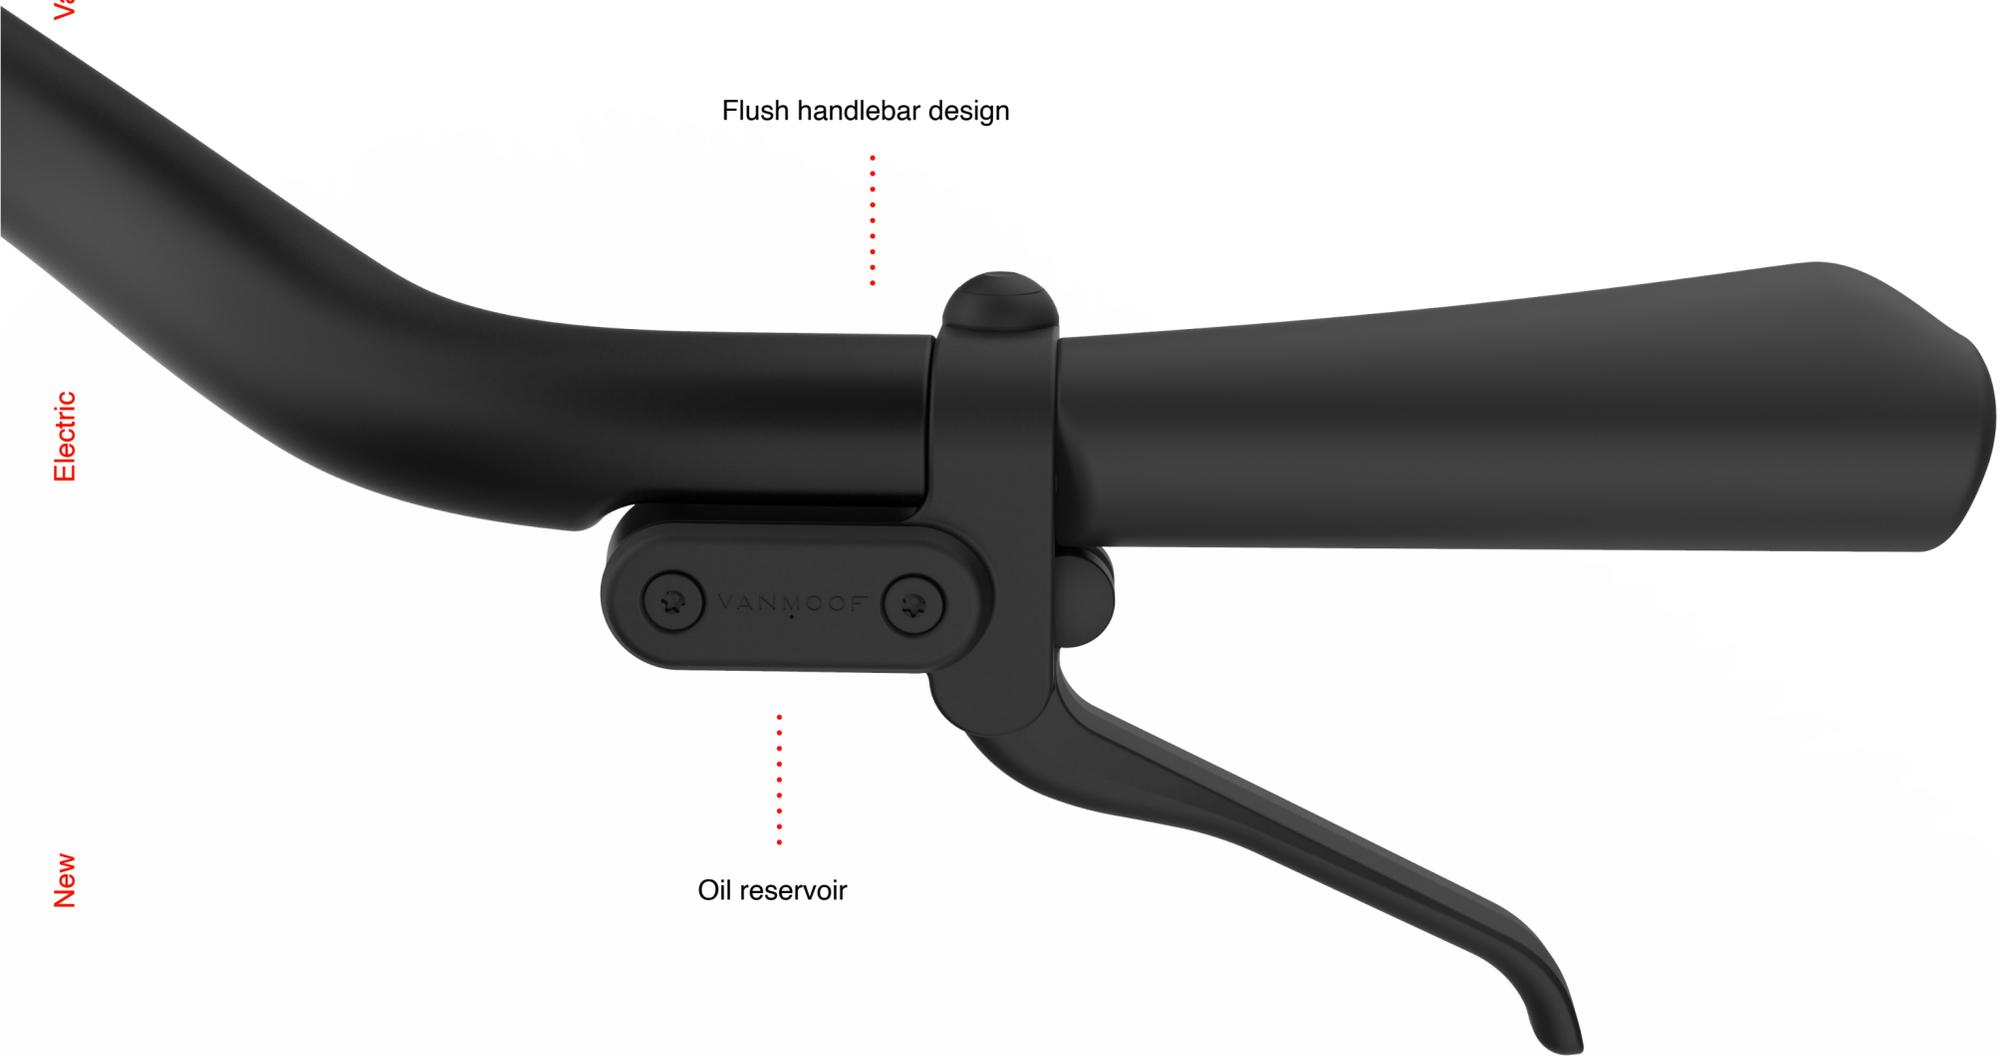

FOR THE SMOOTHEST RIDE. EVER.

The industry-first four-speed electronic gear shifter is designed to tackle every urban incline. After years of testing, we added two extra gears to flatten the steepest inclines riders face on their commutes.

- Automatic electronic gear shifting for a seamless riding experience.
- Shifting levels fully customizable in the VanMoof app.
- Smart Cartridge-controlled for instant gear changes.

E-shifter

Flush handlebar design

Oil reservoir

URBAN HYDRAULIC BRAKES

LOW MAINTENANCE, PEAK PERFORMANCE

We've finally succeeded in integrating all hydraulic elements into the frame for protection, performance, and streamlined aesthetics. This is the first bike on the market with a fully integrated handlebar and brake assembly – just as beautiful to use as it is to look at.

- Precise and powerful braking in all conditions.
- Integrated cabling for maximum city durability.
- One-piece steel discs for instant stopping power.

Boost button

TURBO BOOST

HIGH SPEED ON DEMAND

Functionality, with extra fun. The fan-favorite Turbo Boost returns with extra on-demand power. Designed for when you need it most, or need to show off – just try and wipe the smile off your face.

- Boost button delivers full torque for a blast of instant acceleration.
- Perfect for zipping away from traffic lights, up steep hills, and across tricky intersections.

ONE PIECE SADDLE

MINIMALIST STYLE, MAXIMUM COMFORT

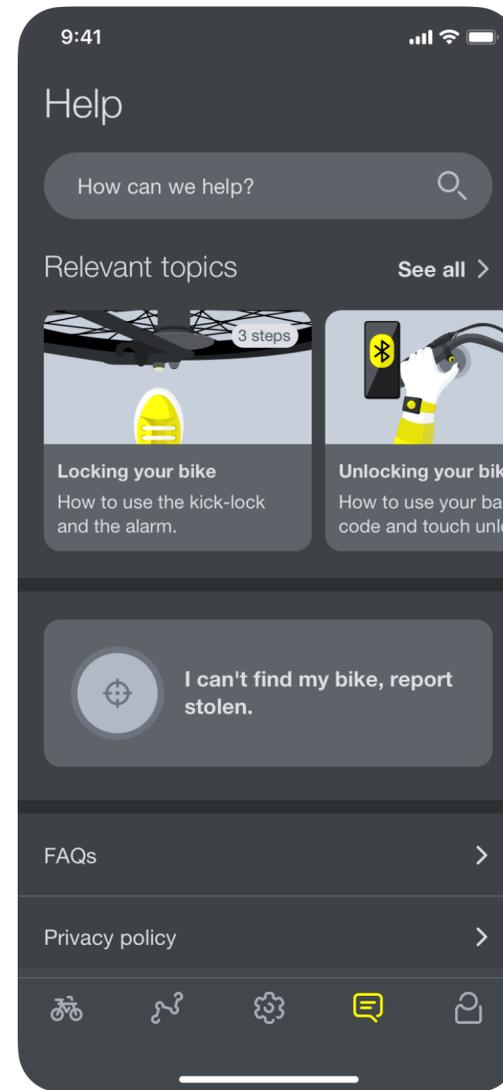

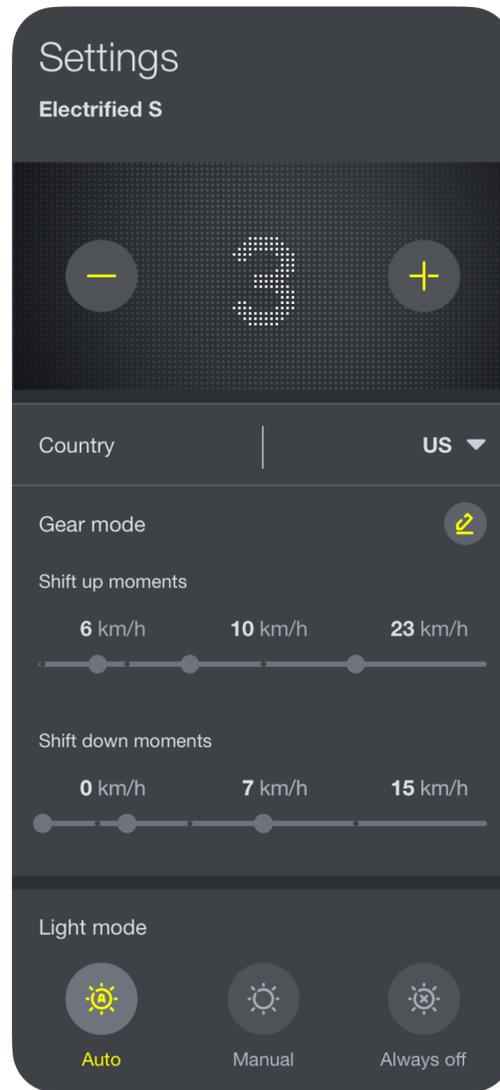

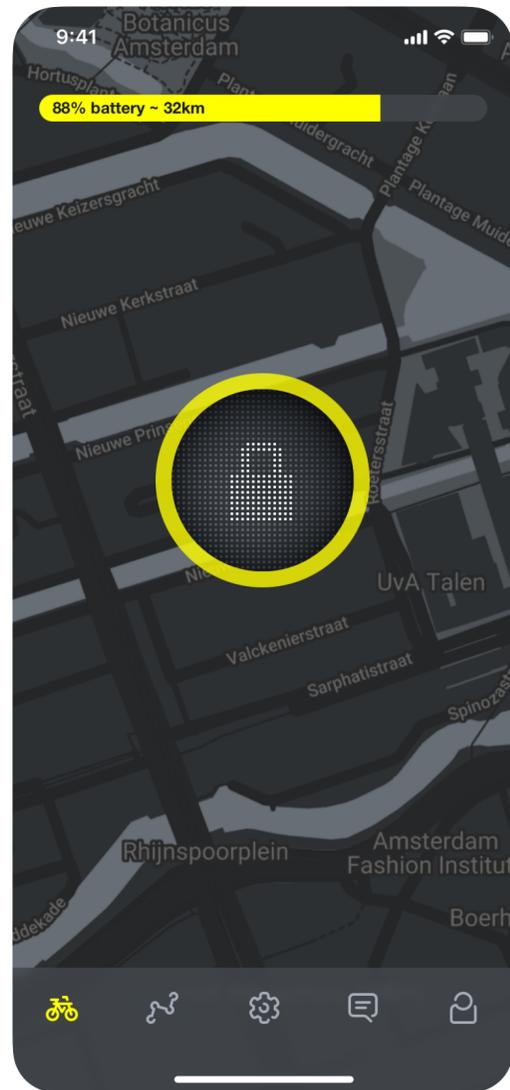

Everything on a VanMoof is designed and built to work with everything else. That includes the saddle. We're breaking the industry convention of cheap throwaway saddles with a unique one-piece design that's as comfortable as it is durable.

- Multi-layered shock absorbing foam for comfortable all-day riding.
- Vertical and horizontal adjustment for perfect rider fit.

THE VANMOOF APP

SMART RIDE INSIGHTS AND DEEP CUSTOMIZATION

Unleash the full potential of the S3 & X3, with the VanMoof App. Encrypted Bluetooth keeps your connection secure, and Rider Recognition allows one-touch locking and unlocking. Look out for increased functionality in free updates – this app has always got your back.

- Report as stolen and track bike's location
- Lock down your bike remotely, enabling location tracking and disabling all functionality.
- Set custom e-shifter gear changing.
- Customize light, unlock, and alarm settings.
- Track your rides, with deep insights (coming Summer 2020).

ABOUT VANMOOF

GETTING THE NEXT BILLION ON BIKES

VanMoof was founded in 2009 by Taco and Ties Carlier, two Dutch brothers with a vision of the perfect city bike.

Ten years later, their high-tech feature-rich e-bikes are ridden worldwide by a community of over 120,000 international riders.

With brand stores in Amsterdam, Berlin, London,

New York, Paris, San Francisco, Seattle, Taipei, and Tokyo, and riders buying online across the globe, the company is driven to get the next billion on bikes.

And as a major figure in the current wave of e-bike adoption, VanMoof is on course to redefine city mobility forever.
