

Subasta de Ocio: 27th fastest growing startup in Europe

Europe is enjoying a sustained, if not evenly shared, recovery. Part of this expansion is being delivered by the start-ups and other fast-growing companies that are adding jobs, disrupting industries and spreading far beyond their home turf.

The FT 1000 lists the companies in 31 European countries that have achieved the highest compound annual growth rate in revenue between 2013 and 2016. Technology remains the best represented sector, contributing 155 companies to the list, with a food delivery company topping the list for the second year in a row: UK-based Deliveroo takes the place of Germany's HelloFresh.
