## Pricing and Products

- Komoot is free to download and to use.
- Komoot has three pricing models: Free, Maps, and Premium.
- Komoot Maps users can purchase map regions for offline navigation. New users receive a map region of their choice for free on sign-up.
- The Maps are offered as three different packages: a Single Region at £3.99 (\$3.99 USD / \$3.99 AUD), a Region Bundle (5 regions) at £8.99 (\$8.99 USD / \$8.99 AUD), and the World Package (all regions) at £29.99 (\$29.99 USD / \$29.99 AUD). All komoot Maps packages are one-time payments.
- Komoot Premium is a subscription product costing £59.99 (\$59.99 USD / \$59.99 AUD) per year.
- Komoot Premium features include:
  - **Sport-specific maps** — Find sport-specific details with switchable maps that show all official hiking, cycling, and mountain biking routes.
  - **Multi-day planner** — Plan extended hikes and rides that last from two days to multiple weeks.

- **Live Tracking** — Share real-time location information with family and friends.
- **3D Maps** — Discover, plan, and relive adventures in full 3D.
- **On-Tour weather** — Know exactly what the weather's doing along every inch of a Tour.
- **Personal Collections** — Bundle Tours and Highlights into customizable Collections, perfect for sorting activity history and planning upcoming adventures.

## Komoot Key Features

- **Discover on komoot** — Search millions of ready-made Tours from any start point. Filter by sport type, location, duration, elevation, waytype, and more.
- **Route Planning** — Enter a start and endpoint; choose a fitness level; choose a sport type; and either 'round trip' or 'one way', and komoot will do the rest. Customize routes and include user-recommended Highlights. Search for and include points of interest such as shops, campsites, and cafes/restaurants.
- **Route Profiles** — Detailed Route Profiles display elevation, waytype and surface information, and Routing Tips. Routing Tips include information on unsuitable terrain, steep inclines, ferries, and potentially dangerous terrain.
- **Highlights** — Recommendations from the komoot community appear on the map as Highlights (red dots on the map). These can include a great cafe, a beautiful viewpoint, an enjoyable segment of trail, or a notable feature of the landscape.
- **Trail View** — Click the green dots on the web planner to see detailed, user-generated trail images. This shows you what to expect from the trail.
- **Navigation** — In the komoot app, use turn-by-turn voice navigation (iOS or Android), and re-route as you go. Tours saved for 'offline use' can be navigated using less battery life and without the worry of losing signal.
- **Community features** — Share, tag, or invite komoot users to a Planned or Completed Tour. Follow other users, and like and comment on their Tours and Collections.
