

Raidboxes becomes part of the team.blue family

team.blue is excited to announce that Raidboxes, a leading WordPress hosting provider, is joining its ever-growing group of companies. Raidboxes is a thought leader and established expert on WordPress and WooCommerce hosting, specifically targeted at agencies and freelancers.

Founded in 2014 by Torben Simon Meier and Johannes Benz, [Raidboxes](#) has a clear mission to offer the best [WordPress](#) and [WooCommerce](#) hosting experience for agencies and freelancers.

Raidboxes has developed proprietary software on top of WordPress, the world's most used website software, to develop, maintain and host WordPress and WooCommerce websites with ease. It takes care of all the technical details for keeping websites running fast, secure and stable so that its customers can focus on growing their business.

With a team of 45 experts in Münster, Germany and throughout Europe, Raidboxes serves over 16.000 customers in 55+ countries. Their customers praise Raidboxes for their performance ([up to 4x times faster than regular hosting](#)), security and world-class, in-depth support. Hosting at Raidboxes is even climate positive since they [plant a tree](#) for every website hosted.

Torben and Johannes, both founders of Raidboxes, will keep on leading the company. They will be supported by the team.blue organization that will enable further acceleration of its international expansion plans in the WordPress and WooCommerce business. As part of this plan, team.blue is looking forward to having its 2.5M+ customers benefit from Raidboxes' great tools and services.

We are very thankful to have met the guys from team.blue. We love their entrepreneurial spirit, their competency, friendliness and also their ambition to be a company that creates value for all stakeholders. Since we follow the same vision of creating an ecosystem for SMEs where they can fully profit from digitalization, we are very much looking forward to the joint time ahead.

— Torben Simon Meier and Johannes Benz, founders of Raidboxes

Raidboxes is complementary to the strategy and focus of team.blue, and I'm therefore extremely happy to have them join our group. They are a true reference in terms of WordPress hosting and have the know-how on how to win in the WordPress ecosystem, which is dear to us. It's this expertise and further ambitions to grow the business within team.blue that makes this an exciting endeavour for both of us.

— Jonas Dhaenens, CEO of team.blue

No further details about this transaction will be made available. For more information about this press release, please contact press@team.blue.

About Raidboxes

Raidboxes offers lightning-fast, secure and GDPR-compliant WordPress hosting for agencies, freelancers, online shops, publishers and businesses. Raidboxes' mission is to create more freedom for their more than 16,000 customers in over 55 countries by making it as simple as possible to create and manage WordPress projects on their platform. Thanks to their infrastructure being tailored exclusively to WordPress, websites at Raidboxes can run up to 4x faster than with other web hosts without any additional optimization measures. Features like automatic backups, updates and caching are integrated at server level for maximum performance and security.
