

This year, Bell will be attending the Advancing Public Safety Conference (APSCON) July 9-14 in Louisville, Kentucky. At booth #108, Bell will display the [Bell 429](#) and feature one of our loyal customers, Nassau County Police Department. Come stop by and meet with our regional sales managers and our customer support and service representatives.

Nassau County's Aviation Unit, based in Long Island, New York is renowned for its law enforcement, providing safety and high-quality care in its communities. With the help of Bell products, the department can effectively solve problems and protect lives. With more than 1,400 Law Enforcement and Helicopter Emergency Medical configured Bell aircraft currently in operation, each Bell aircraft is designed for industry leading performance and reliability.

The Bell 429 meets or exceeds today's airworthiness requirements to enhance occupant safety, with the adaptability to remain at the forefront as mission requirements evolve. The aircraft's use of metallic and composite parts in its construction creates the perfect balance between rigidity and flexibility, safety and durability. Its multi-mission ready layout accommodates seven passengers and the exceptional cabin volume, large cabin doors and optional rear clamshell doors easily accommodate special mission equipment.

The Airborne Public Safety Association (APSA) is a non-profit educational, individual membership organization, founded in 1968 to support and encourage the use of aircraft in public safety. The organization’s vision is to promote the safe and successful completion of each airborne public safety operation. Bell is a proud sponsor of this event, so please stop by our booth to learn more about our products.

#### ABOUT BELL

Thinking above and beyond is what we do. For more than 80 years, we’ve been reimagining the experience of flight – and where it can take us.

We are pioneers. We were the first to break the sound barrier and to certify a commercial helicopter. We were aboard NASA’s first lunar mission and brought advanced tiltrotor systems to market. Today, we’re defining the future of on-demand mobility.

Headquartered in Fort Worth, Texas – as a wholly-owned subsidiary of Textron Inc., – we have strategic locations around the globe. And with nearly one quarter of our workforce having served, helping our military achieve their missions is a passion of ours.

Above all, our breakthrough innovations deliver exceptional experiences to our customers. Efficiently. Reliably. And always, with safety at the forefront.

### **About Textron Inc.**
