

Glenn Isbell Appointed to Texas Task Force

Bell is proud to recognize Glenn Isbell on his appointment to the Task Force on Modernizing Manufacturing, a Texas initiative.

Bell is proud to recognize Glenn Isbell, the vice president of Prototyping, on the appointment to the Texas Task Force on Modernizing Manufacturing, a Texas initiative established under the leadership of Governor Greg Abbott.

Consisting of 15 members, this advisory body is charged with studying and recommending strategies to support modernization across small, mid-sized and large manufacturers in Texas.

Isbell, who marked his 30th service anniversary at Bell this year, is currently responsible for defining new materials and manufacturing processes that integrate within the digital design capabilities that produce Bell's next-generation products. He works to accelerate this by deploying integrated systems and developing the prototyping and test infrastructure required to shorten new product development cycle times.

"It's an honor to be appointed to this task force and to represent Bell among other industry leaders," said Isbell. "I look forward to having meaningful dialogue and proposing strong solutions that will increase our manufacturing capabilities in Texas."

Isbell's appointment will strengthen Bell's presence in key policy conversations as the company continues to make major strides in prototyping, advanced manufacturing technologies and the acceleration of MV-75 production.

Isbell joins Bell's Amarillo Site Leader Sonja Clark, who was appointed to the state's Aerospace and Aviation Advisory Committee. Both Clark and Isbell will represent Bell and have a voice in strengthening the industry in the state for years to come.

About Bell

About Bell

Thinking above and beyond is what we do. For more than 90 years, we've been reimagining the experience of flight – and where it can take us.

We're an aerospace and defense company that engineers and manufactures aircraft for critical solutions in extreme scenarios. We're breaking barriers in lifting people to safety across transportation, medical, rescue and military services, and leading the industry in future solutions that are fast, reliable and efficient.

Headquartered in Fort Worth, Texas – as a wholly-owned subsidiary of Textron Inc., – we have strategic locations around the globe. And with nearly one quarter of our workforce having served, helping our military achieve their missions is a passion of ours. Above all, our breakthrough innovations deliver exceptional experiences to our customers. Efficiently. Reliably. And always, with safety at the forefront.

About Textron Inc.

Textron Inc. is a multi-industry company that leverages its global network of aircraft, defense, industrial and finance businesses to provide customers with innovative solutions and services. Textron is known around the world for its powerful brands such as Bell, Cessna, Beechcraft, Hawker, Jacobsen, Kautex, Lycoming, E-Z-GO, Arctic Cat, Textron Systems, and TRU Simulation + Training.
