EVBox and Share and Charge are partnering for a seamless charging experience

Amsterdam, January 29th, 2019 - [EVBox](#), one of the leading global manufacturer of electric vehicle charging stations and charging management software, has announced a partnership with [Share&Charge](#), an independent organisation working towards the creation of a global standard, to provide a seamless charging experience.

Dietrich Sümmermann, Chairman of the Share&Charge Foundation, says:

Great to have one of the market leaders on board and to further elaborate amongst others the combination of the OCPI standard and the share&charge solution. The upcoming EV Charging Economy requires a new way of ecosystem thinking and community building. We further invite individuals and companies around the globe to contribute and shape the future of EV charging economy.

— Dietrich Sümmermann, Chairman of the Share&Charge Foundation.

EVBox's Head of Product Management Software, Onno Ceelen, is also excited about the partnership:

EVBox is very happy with the steps made in the summer pilot and we believe that blockchain technology can play a pivotal role in solving interoperability challenges in the industry.

— Onno Ceelen, Head of Product Management Software
