## Solar and EVBox collaborate to offer EV charging solutions to installers in Norway

**Solar Group and EVBox, a global leader in EV charging solutions offering hardware, software and services, have joined forces to form a strategic distribution partnership. Solar is a leading European sourcing and services company covering all installers in Norway.**

**Amsterdam and Oslo, June 9, 2020**—Solar offers state-of-the-art technology and solutions to leading manufacturers for climate control and energy technology and covers an extensive network of installers in Norway. With a focus on actively preparing for a sustainable future and becoming part of the solution, Solar shares the same values as EVBox and offers intelligent EV charging solutions that can help pave the way for a zero-emission future.

### *EVBox BusinessLine*

To meet the growing demand for EV charging solutions in the Norwegian market, EVBox and Solar will introduce a complete range of products which installers can order online. The first products are EVBox Elvi (home charging/AC) and EVBox BusinessLine charging stations (workplace charging, fleet management/AC).

*"I am very happy to have Solar on board as our new distribution partner in Norway. Their impressive network and notable connections with installers allow EVBox to provide proven technology and charging stations in one of the most forward-thinking and EV-centric countries in the world."*

— Geir Bjørnstad (Regional Director Nordics of EVBox)

**EVBox's technical expertise is made for the Norwegian market**

Over the last few decades, Solar has established a strong position in the market for climate and energy solutions, and EVBox's technical expertise fits perfectly alongside Solar's efforts in Norway. With EVBox's extensive and impressive portfolio of smart charging stations, Solar is now able to offer fully integrated and intelligent energy solutions within the unique Norwegian residential and commercial market.

*"We look forward to our collaboration with EVBox and see this partnership as the cornerstone to our climate and energy solutions offering. EVBox's strong product portfolio and excellent technical knowledge have impressed us, and we see great potential in this partnership moving forward. Together, we will pursue green business opportunities."*

— Jan Willy Fjellvær (Managing Director of Solar Norway)

## About Solar

Solar Group is a leading European sourcing and services company concentrating on heating, plumbing, and ventilation, as well as climate and energy solutions. Its core business focuses on product sourcing, value-adding services, and optimization of its customers' businesses. Solar facilitates efficient improvements and provides digital tools that turn its customers into winners. They drive the green transition and provide best-in-class solutions to ensure the sustainable use of resources. <https://www.solar.eu/>
