

## THE GRIP GRAVEL TEAM KIT GOES ON PUBLIC SALE ON 8 MAY

As official kit supplier to The Grip, the elite gravel team that's the brainchild of Wilier Triestina and three-time Traka360 winner Mattia De Marchi, we've already seen some thrills and spills and podiums this season. Now, the acclaimed Grip kit is off on a new adventure, on a trail or track near you.

### TEAM KIT THAT WILL BE AVAILABLE TO BUY INCLUDES OUR:

- Highly breathable *Bergida superlight jersey*, made from recycled fabrics
- *Constance long-sleeve jersey*, for optimal performance in cooler conditions
- *Race-ready Victoire bib shorts*, made from an incredibly light, breathable and compressive French fabric
- *Aero socks*

- **Chiara casual tee**, so you can show your support even when not on the bike

Having immersed ourselves in the gravel racing scene since day one, we've poured all our expertise into this kit, and are proud to support team principal and rider Mattia, and team riders Eddy Le Huitouze and Jordy Bouts.

Notable results so far include two stage wins and a GC podium for Eddy at Sahara Gravel and a fifth place for Mattia at Gravel Desert. They have a full season taking in Unbound Gravel and many of the world's biggest races, and were back at The Traka this past weekend.

Success on gravel is all about grip. Through the dirt and the dust we will stay the course. Hold on for the ride of your life!

## ABOUT CAFÉ DU CYCLISTE

Anchored on the Côte d'Azur, Café du Cycliste is a French label dedicated to sharing a passion for cycling and the outdoors, and one of the first clothing companies to recognise the gravel revolution and make specific gravel apparel. Our technical and lifestyle products are predominantly made in Europe, using recycled and sustainable materials wherever possible, and we achieved B Corp certification in 2024. Each piece is designed to go further, move faster, and explore more. What began back in 2009 as a simple idea to do things differently has become a community of like-minded people who share the same values, beliefs, and a desire to be #foreveroutsiders.
