

IT&E announces it's an Authorized Apple Service Provider

HARMON, Guam - IT&E today announced it has been designated as an Authorized Apple Service Provider.

Starting in late December, IT&E iPhone users can get their phones repaired by in-store Apple certified technicians. Services that may have required sending the phone off-island can be done here. Services include troubleshooting, battery upgrades, and parts replacement for devices purchased after December 7.

Subscribers can also get support over the phone by calling 922-4483 (Guam)/ 682-4483 (CNMI) or online at ite.net.

“Through this designation we are able to offer our iPhone users the immediate support they need and expect. Our iPhone technicians have completed the same training and certification that is required for Apple Store employees and I’m confident that they’ll provide excellent service to our subscribers.”

— Jim Oehlerking, CEO

The designation is accompanied by the arrival of the iPhone Xs, iPhone Xs Max, and iPhone XR at IT&E. The latest generation of the iPhone offers the latest in Apple technology and design.

The iPhone Xs is available for as low as \$349, the iPhone Xs Max is available for as low as \$449, and the iPhone XR is available for as low as \$99, on the Freedom plan. Subscribers can stream, shop, share, play, and work with unlimited 4G LTE network on the widest network in the Marianas.

“We’re so pleased to combine the innovation and craftsmanship of the iPhone with the only truly unlimited 4G LTE plan in the Marianas. With this technology in their hands, our subscribers can live their best life.”

— Angela Rosario, Director of Product Development and Marketing

Subscribers can visit any IT&E store or go online to ite.net to browse the selection of iPhones, including the iPhone X, iPhone 8, and iPhone 8 Plus.

Brilliant. In every way.
