

# IT&E expands Mobile Passport for traveling subscribers

Now IT&E subscribers can use their data to share, stream, like, love, and play all around the world. IT&E today announced the expansion of its Mobile Passport services to even more destinations.

Mobile Passport is an alternative to costly roaming, swapping SIM cards, and allows for easy transition while traveling. Subscribers can use their local data buckets for as low as \$10 a day when they travel. The service is now also available in:

- United States
- Philippines
- Japan
- Korea
- Hong Kong
- Thailand
- Singapore
- Taiwan
- Austria
- The United Kingdom
- Cambodia
- Australia

*“Whether you’re looking for a nearby restaurant with Google Maps, checking your iMessages, or using your bank’s mobile app, mobile data is often a must when traveling for pleasure or for work. Mobile Passport is a super convenient and easy way to stay connected while traveling. Now that we’ve added more destinations, we’re empowering our subscribers to do more on their phones in more places.”*

— Angela Rosario, Director of Public Development and Marketing at IT&E.

Subscribers will automatically connect to data roaming services with Mobile Passport rates once they reach their destination. It's available on all postpaid plans, including IT&E's unlimited data plan, Freedom, and stackable unlimited plan, Freedom+. Subscribers can also top-up their data buckets abroad via SMS.

*“The depth and breadth of our global footprint continues to give our customers the strongest coverage at affordable rates. We are partnered with premier networks to provide the highest level of quality and performance for customers abroad.”*

— Kevin Diego, Principal of Global Roaming & Device Technology, Wireless Networks of IT&E.

In addition, Mobile Passport is part of IT&E's United MileagePlus program. Subscribers can earn 3 United MileagePlus miles for every dollar spent on their monthly statement.

# Roam Worry-Free

## Mobile Passport

Travel with worry-free data roaming for as low as \$10 a day. Use your local data bucket in:

- United States
- Philippines
