FundedHere partners with Greenhouse to provide business solutions to Indonesian start-ups

FundedHere, Singapore's first MAS-licensed equity and debt crowdfunding platform has entered into a Memorandum of Understanding (MOU) with Singapore-based company, Greenhouse, and confirmed their position as a new partner. As part of the MOU agreement, FundedHere will be providing their expertise and assisting start-ups in developing their businesses through masterclasses, fireside chats, and so on.

Greenhouse is the first marketplace for incorporation and corporate secretarial services in Southeast Asia, enabling companies to enter and scale up their businesses. Based on the start-ups' needs and budget, Greenhouse's marketplace connects them with pre-screened B2B service providers they need to establish themselves in their target markets. The available services range from company incorporation, business address or workspaces, and immigration services.

Of their recent MOU with FundedHere, Greenhouse’s head of brand experience Clarissa Budino said, “Considering FundedHere’s vibrant ecosystem of start-ups and investors, their business acumen will be deeply valuable to Greenhouse’s centralized platform of solutions. Moving forward, this partnership will aid in further developing Greenhouse’s strong business network.”

ABOUT FUNDEDHERE

FundedHere is Singapore's First-MAS Licensed Private Equity and Lending-based Crowdfunding Platform. FundedHere runs a highly focused 30-days fundraising program for companies to raise capital from its 1,800 strong investors. Since inception, FundedHere has raised over S\$17 Million across 29 campaigns.
