Round 2 is now live at www.dietbitcoinICO.org and currently discounted to only \$3.50 per coin. "My coin will sell out completely, of course. All of my early followers will thank me in the end. When my coin becomes very valuable. It will. When you wait, you lose. I do what I say. I am a man of action. I created dietbitcoin for the people." Says Roberto Escobar, Founder of Escobar Inc.

Dietbitcoin (DDX) is a new completely decentralized cryptocurrency, a hard fork of the Bitcoin network, essentially a faster and lighter version to Bitcoin but with centralized management of Escobar Inc and Roberto Escobar to fully support the coin growth and progress.

"Everyone should listen to these news, go to www.dietbitcoinICO.org and buy as many dietbitcoin's as you can afford, the value will be very high as we are identical in numbers to Bitcoin, except we are 2000 times cheaper right now" says Daniel Reitberg, Chief Operating Officer of Escobar Inc.

Roberto Escobar, alongside his brother Pablo, belong to one of the most successful businessmen in history, having made over \$100 billion dollars in profit during his career. "I made over \$100 Billion Dollars in profit throughout my career. That's more than any other company in the world has made in profit, ever." says Roberto De Jesus Escobar Gaviria, Pablo Escobar's brother in his new book "Pablo Escobar's dietbitcoin: After making \$100 billion dollars, Roberto Escobar launches the dietbitcoin "DDX" cryptocurrency".

"Why would anyone on the planet buy bitcoin or any other cryptocurrency where there is no real team behind it? Our team of staff at Escobar Inc are committed to support the cryptocurrency dietbitcoin fully and are managing the day-to-day operations of this new currency." says Escobar Inc Chief Executive Officer Olof Gustafsson

The new cryptocurrency is currently available for sale for only \$3.50 per coin (2000 times cheaper than Bitcoin) at www.dietbitcoinICO.org. Only a very limited amount of 1 million coins are for sale.
