JBL PartyBox 330 and PartyBox 130 deliver punchy sound, next-level light shows and bolder designs

Legendary JBL sound, made to move you

Amsterdam, 12 May 2026 – JBL announces PartyBox 330 and PartyBox 130, the next generation of its iconic party speaker range. Feel the power and move to the rhythm as JBL brings in a new era of sound and design. The bass goes deeper and the highs are cleaner than ever before thanks to upgraded woofers, and a new tweeter technology. And JBL AI Sound Boost with Smart EQ mode makes sure every track sounds its best, whatever you throw on. A completely new look and a reimagined lightshow do the rest.

New shape, new design, new experience

Two new speakers. One distinctive new look. JBL's boldest design yet: a new hexangle profile that lets light and sound flow around the curved front grill. A redesigned top panel built around a single dial that puts all commands – volume, audio modes, light effects – right at your fingertips. Available in Black or White with orange details, the new generation PartyBox looks as powerful as it sounds.

JBL PartyBox 330: Big sound. Built to move

JBL PartyBox 330 delivers 280W of total output power. Feel deep, chest-thumping bass that brings every track to life, powered by dual 6.5" woofers. Enjoy crisp, clear highs that cut through the mix, thanks to twin PEN dome tweeters, the same pro-grade technology trusted in JBL's systems that power concerts for thousands, now making its PartyBox debut. The new shape, ripple-effect side panel – built from miniature JBL horns – and a reinvented lightshow with beat-synced dynamics are a visual expression of all of that pure power.

Up to 18 hours of playtime and Fast Charge keep the music going as long as you do, and an easily replaceable battery* means the party never has to stop. A telescopic locking handle and all-terrain wide wheels make it effortless to move.

Capture the live energy with dual mic and guitar inputs. For easy sing-alongs, connect through the PartyBox 330's new optical TV input, or for lossless audio plug into USB-C. The full guest list shows up? Auracast™ lets you pair multiple JBL speakers for a sound system that scales with the crowd.

JBL PartyBox 130: Carry pure party energy

Compact, powerful, and ready to take where the party is, PartyBox 130 brings 200W of

JBL Legendary Sound to any setting. Upgraded 5.25" woofers and 25mm silk dome tweeters deliver big bass and crystal-clear highs. A reinvented lightshow with powerful strobe edge lights and dynamic, vibrant effects sets the mood wherever you go.

Keep the music going with 15 hours of playtime, a 10-minute Fast Charge for 80 extra minutes. A redesigned foldable carry handle makes it easy to grab and go, and IPX4 splash-proof protection helps protect against splashes and light spills that the night can throw at it.

JBL PartyBox 330 will be available from July in Black and White for €599,99 and JBL

Partybox 130 will be available from May in Black and White for €399,99 both from at JBL.com.
