JBL raises the bar with new Soundbar series

Three new models. Powerful sound. MultiBeam™tech.

IFA 2019, BERLIN – SEPTEMBER 5, 2019 – Slimmer, punchier bass and more immersive sound; JBL has taken home entertainment to the next level. With three brand new products launching today at IFA including a compact, all-in-one solution, a deep bass beauty and a surround-sound room-filler, there is something for everyone in JBL's new soundbar range.

For ultimate movie fans, the JBL Bar 5.1 Surround provides a panoramic surround sound experience from a single bar and 10" wireless subwoofer. Thanks to JBL's proprietary MultiBeam technology, panoramic surround sound is now available without additional rear speakers and cables. The special configuration of five full range drivers and two side-firing tweeters delivers a room-filling experience. JBL's Bar 5.1 Surround seamlessly becomes part of your home wireless music system, with built in Wi-Fi, Airplay 2 and Chromecast too.

It's all about that bass, next in the range with the JBL Bar 2.1 Deep Bass, turning your living room into your own private cinema or stadium. Get the popcorn out and enjoy the bass with built in Dolby Digital. Offering 300W of powerful sound and a slim design, Bar 2.1 Deep Bass also lets you stream music from a mobile or tablet with Bluetooth.

The compact yet powerful JBL Bar 2.0, is an all-in-one soundbar with a built-in bass port and incredibly simple set up. Perfect for those looking to boost the audio of a bedroom or small living room TV, Bar 2.0 also features built in Bluetooth for music streaming.

The entire range is designed to fit effortlessly into your life (and in front of your TV!) with premium materials and, of course, best in class, JBL Signature sound.

“JBL designs soundbars for every home environment and use case and we’ve just raised the bar with our new collection. Whether customers are looking for a full surround-sound system, an amped-up bass or a sonic solution for a small space JBL soundbars turn the everyday into the epic ,” said Dave Rogers, President, HARMAN Lifestyle Audio.
