The best multi-room speaker system to start small and build on

What is the best multi-room system to start with? One that grows with you. Filling your whole home with speakers can feel like a big, expensive leap, but JBL Cove makes it simple. Start with a single JBL Cove M1 in the room you use most, then add more whenever you are ready. Each speaker tunes itself to its surroundings automatically, helping optimize performance wherever you place it.

The easiest way to start multi-room audio

For people considering whole-home or multi-room systems JBL Cove offers a flexible way to start with a single speaker and expand over time. You can use speakers individually or as stereo pairs and add more to create a connected home audio system as your needs grow. JBL Cove is designed to deliver powerful room-filling JBL sound throughout your home. Constant Sound Field technology helps keep sounds well-balanced everywhere in the room, while AI Sound Boost helps minimize distortion when listening at higher volumes.

Across the JBL Cove range, you get:

- Automatic self-tuning for room optimization and flexible speaker placement
- 2-way speaker design for clear, detailed sound
- Full range of connectivity with Wi-Fi, Bluetooth, AirPlay 2, Google Cast™, Roon Ready, Spotify Connect, Tidal Connect, and Qobuz Connect

JBL Cove M1: the compact starting point

The JBL Cove M1 is the affordable entry point to the Cove whole-home audio experience. Compact enough for smaller spaces but delivers clear, balanced audio from a single speaker while giving you the flexibility to build from there.

JBL Cove P1: portable listening with Dolby Atmos®

The JBL Cove P1 adds battery-powered convenience to the Cove range, alongside immersive Dolby Atmos® sound. With 14 hours of battery life you can move effortlessly between portable listening and your whole-home audio system.

JBL Cove X1: flagship room-filling performance

For those looking to take their home audio further, the JBL Cove X1 is the flagship model in the range. It features four tweeters and dual woofers for powerful, room-filling audio with
Dolby Atmos®.

Build your system when you are ready

Build your JBL Cove system around your home and listening habits. Create a group in the
JBL One app to play music throughout the house, or stream in a single room without ungrouping or resetting speakers. Start with the compact JBL Cove M1, choose the portable Cove P1 or go straight for the most powerful Cove X1, then add more speakers when you are ready to expand your system

JBL Cove speakers will be available from JBL.com from 8 October 2026 in black and white. The JBL Cove M1 is priced at €229.99, the Cove P1 at €449.99 and the Cove X1 at €499.99.
