With this collaboration, KLM and Withlocals are looking to motivate and inspire both local tour guides and travelers until traveling is back on track.

*"Our brand name says it all. Locals are at the center of our existence as a brand. That's why we believe it is our responsibility to support the local communities during these hard times to the best of our ability. We are collaborating with KLM again to grant our local hosts an opportunity to showcase the beauty of their cities and to guide travelers through the guidelines of safe tourism during a pandemic." says Houda Sayed, Marketing Strategies at Withlocals*

KLM and Withlocals invite you and all travel enthusiasts on a virtual tour through beautiful Cape Town and its hidden gems hosted by a true local, Christopher. Through this virtual experience, the local host will share parts of Cape Town's daily life and will take us to find the best breakfast in town. Viewers will also see city highlights like the Castle of Good Hope, and Company's Garden. The local host will also share fun facts of Cape Town that will make this virtual experience more interactive and enriching for those that love Cape Town and are planning their trip to this incredible city soon.

The tour is customized to engage the Instagram community in a virtual city exploration with the hope that people will start dreaming about their next trip and local tour guides can share their beautiful stories once again. #### How it all started

The idea of the company originated when founder Willem Maas was traveling in India. After some disappointing experiences, Willem met an amazing guide who showed him the true colours and wonders of India. When he found out Willem was working in online marketing, he asked if he could set up a website which would send guests directly to him, so he and his family would be the one profiting. That's exactly what Willem did in 2013 when he founded Withlocals.
